The Commission was established in the 400 Years of African-American History Commission Act to coordinate the 400th anniversary of the arrival of the first enslaved Africans in the English colonies. The Commission's purpose is to plan, develop, and carry out programs and activities throughout the United States that recognize and highlight the resilience and cultural contributions of Africans and African Americans over 400 years; acknowledge the impact that slavery and laws that enforced racial discrimination had on the United States; encourage civic, patriotic, historical, educational, artistic, religious, and economic organizations to organize and take part in anniversary activities; assist states, localities, and nonprofit organizations to further the commemoration; and coordinate public scholarly research about the arrival of Africans and their contributions to the United States.

The Architectural and Transportation Barriers Compliance Board (Access Board) was established by section 502 of the Rehabilitation Act of 1973. The Access Board is responsible for developing guidelines under the Americans with Disabilities Act, the Architectural Barriers Act, and the Telecommunications Act. These guidelines ensure that buildings and facilities, transportation vehicles, and telecommunications equipment covered by these laws are readily accessible to and usable by people with disabilities. The Board is also responsible for developing standards under section 508 of the Rehabilitation Act for accessible electronic and information technology used by Federal agencies and standards under section 510 of the Rehabilitation Act for accessible medical diagnostic equipment. In addition, the Access Board enforces the Architectural Barriers Act, and provides training and technical assistance on the guidelines and standards it develops.

The Board also has additional responsibilities under the Help America Vote Act. The Board serves on the Board of Advisors and the Technical Guidelines Development Committee, which helps the Election Assistance Commission develop voluntary guidelines and guidance for voting systems, including accessibility for people with disabilities.

The Budget provides \$235 million for Appalachian Regional Commission (ARC), which was established as a Federal-State partnership in 1965 to invest in sustainable economic development in the 423-county Appalachian Region. The Commission is comprised of 13 members representing the States in the region and a Federal Co-Chair, who represents the Federal Government. ARC's mission is to help the Appalachian Region plan and coordinate regional investments and target resources to those communities with the greatest needs by innovating, partnering, and investing to build community capacity and strengthening economic growth. ARC's activities include area development, technical assistance, capacity-building, research, and coordination of regional investments and initiatives. In addition, ARC administers the POWER (Partnerships for Opportunity and Workforce and Economic Revitalization) Initiative, a competitive grant program for communities adversely impacted by the declining use of coal to develop economic diversification activities in emerging opportunity sectors.

The Consumer Financial Protection Bureau (CFPB or Bureau) was established under Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203) as an independent bureau in the Federal Reserve System. The Act consolidated authorities previously shared by seven Federal agencies under Federal consumer financial laws into the CFPB and provided the Bureau with additional authorities to conduct rulemaking, supervision, and enforcement. Funding required to support the CFPB's operations is obtained primarily through transfers from the Board of Governors of the Federal Reserve System. Pursuant to the Act, the CFPB is also authorized to collect civil penalties in any judicial or administrative action under Federal consumer financial laws. These amounts are maintained and displayed in a separate account titled "Consumer Financial Civil Penalty Fund."

Pursuant to Title X of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111–203), the Consumer Financial Protection Bureau (CFPB or Bureau) is authorized to collect civil penalties obtained in any judicial or administrative action under Federal consumer financial laws. Per the Act, such funds will be available for payments to the victims

of activities for which civil penalties have been imposed under the Federal consumer financial laws. Obligations related to victim compensation are contingent upon identifying the specific victims qualifying for payments. To the extent that such victims cannot be located or such payments are otherwise not practicable, the Bureau may use such funds for the purpose of consumer education and financial literacy programs.

The Budget includes \$5 million for the National Capital Arts and Cultural Affairs grant program which supports larger artistic and cultural institutions operating in the District of Columbia. The Budget maintains the requirement under current law that grantees have annual income, exclusive of Federal funds, of at least \$1 million for each of the three years prior to receipt of a grant. However, in order to partly compensate for the economic impacts of the Covid-19 pandemic on eligible applicants, particularly organizations with smaller annual operating budgets that may not otherwise qualify in 2022, and 2023 due to reduced levels of income resulting from mandatory closures and reduced programing, the Budget proposes to exclude 2020 from the grant eligibility calculation for 2022, and 2023.

COMMISSION ON CIVIL RIGHTS

Originally established by the Civil Rights Act of 1957, the U.S. Commission on Civil Rights is an independent, bipartisan, fact-finding Federal agency. Its mission is to inform the development of national civil rights policy and enhance enforcement of Federal civil rights laws. The Commission pursues this mission by studying alleged deprivations of voting rights and alleged discrimination based on race, color, religion, sex, age, disability, or national origin, or in the administration of justice. The Commission plays a vital role in advancing civil rights through objective and comprehensive investigation, research, and analysis on issues of fundamental concern to the Federal government and the public. The Commission also supports a network of Advisory Committees, each composed of a diverse group of citizen volunteers, which conduct civil rights research at the State and U.S. Territory levels. The Commission on the Social Status of Black Men and Boys Act established the Commission on the Social Status of Black Men and Boys (CSSBMB) within the U.S. Commission on Civil Rights Office of the Staff Director. The CSSBMB studies and makes recommendation to address social problems affecting black men and boys, and for other purposes.

The National Defense Authorization Act for Fiscal Year 2020 established the Commission on Combating Synthetic Opioid Trafficking. See Section 7221, Sub. B, Tit. LXXII, Div. F, of P.L. 116–92. The Commission has 15 members, seven representing the Executive Branch and eight Congressional appointees. The Commission authorized the Office of National Drug Control Policy to manage the Commission's funds. One of the Commission's key responsibilities is to develop a consensus on a strategic approach to combating the flow of synthetic opioids into the United States, and thereafter, submit a mandated report to Congress.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED**Federal Funds****SALARIES AND EXPENSES**

For expenses necessary for the Committee for Purchase From People Who Are Blind or Severely Disabled (referred to in this title as "the Committee") established under section 8502 of title 41, United States Code, \$13,124,000: Provided, That in order to authorize any central nonprofit agency designated pursuant to section 8503(c) of title 41, United States Code, to perform requirements of the Committee as prescribed under section 51–3.2 of title 41, Code of Federal Regulations, the Committee shall enter into a written agreement with any such central nonprofit agency: Provided further, That such agreement shall contain such auditing, oversight, and reporting provisions as necessary to implement chapter 85 of title 41, United States Code: Provided further, That such agreement shall include the elements listed under the heading "Committee For Purchase From People Who Are Blind or Severely

Disabled—Written Agreement Elements" in the explanatory statement described in section 4 of Public Law 114–113 (in the matter preceding division A of that consolidated Act): Provided further, That any such central nonprofit agency may not charge a fee under section 51–3.5 of title 41, Code of Federal Regulations, prior to executing a written agreement with the Committee: Provided further, That no less than \$3,124,000 shall be available for the Office of Inspector General.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Committee for Purchase From People Who Are Blind or Severely Disabled (operating as the U.S. AbilityOne Commission, hereafter "Commission") administers the AbilityOne Program under the authority of the Javits-Wagner-O'Day Act of 1971, as amended. The principal objective of AbilityOne is to leverage the purchasing power of the Federal Government to provide employment opportunities for people who are blind or have other significant disabilities. The Commission accomplishes its mission by identifying Government procurement requirements that can create employment opportunities for individuals who are blind or have other significant disabilities. Following opportunities for public comment and after due deliberation, the Commission then places such products and service requirements on the AbilityOne Procurement List, requiring Federal departments and agencies to procure the designated products and services from a network of approximately 500 qualified State and private nonprofit agencies (NPAs) employing people who are blind or have other significant disabilities. The long-term vision of AbilityOne is to enable people who are blind or have other significant disabilities to achieve their maximum employment potential. In FY 2021, approximately 40,000 AbilityOne employees earned a combined total of \$668,592,334 in wages, with an average hourly wage of \$15.22. The AbilityOne Program continues to emphasize providing employment to veterans, with more than 2,500 employed in direct labor positions. More than 1,500 AbilityOne employees moved into competitive or supported employment in FY 2021 after gaining skills and experience on AbilityOne jobs.

SALARIES AND EXPENSES—Continued

While pursuing its core mission to increase employment opportunities for people who are blind or have other significant disabilities, the Commission is dedicated to effective stewardship and program integrity. The Commission continues to strengthen its Procurement List business processes and to enhance its oversight of AbilityOne Program participants. The resources proposed for 2023 will enable the Commission to continue implementing the requirements of the Consolidated Appropriations Act of 2016. These requirements include establishing and staffing the Commission and the Office of Inspector General for the AbilityOne Program. The requirements also include establishing and administering written agreements that govern the Commission's relationship with its designated central nonprofit agencies, evaluating reports and data from such central nonprofit agencies, implementing the recommendations of the 898 Panel to enhance stewardship, modernizing our information technology and maintaining the Commission's compliance and operations capacity to oversee a national program with approximately \$4 billion in annual sales of products and services to the Government.

The mission of the Commodity Futures Trading Commission (CFTC or Commission) is to: foster open, transparent, competitive, and financially sound markets; prevent and deter price manipulation and other disruptions to market integrity; and protect market participants and the public from

fraud, exploitation, and abusive practices related to derivatives and other products that are subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA). The CEA established a comprehensive regulatory structure to oversee the futures trading complex, commodity options trading, intermediaries, and swap dealer activities.

The Commission's regulatory landscape is continually changing. As a responsible regulator, the CFTC seeks to promote responsible innovation and development that is consistent with its statutory mission to enhance the derivative trading markets. Further, the agency seeks to lower the systemic risk of the futures and swaps markets to the economy and the public.

The markets under the CFTC's regulatory purview are economically significant. In the United States, the markets for futures and options on futures represent trillions of dollars of notional value while the swaps markets represents hundreds of trillions of dollars in notional value.

The Budget proposes legislation authorizing user fees to fund certain Commission activities, as specified by the CFTC, in line with nearly all other Federal financial and banking regulators. Contingent upon enactment of authorizing legislation, the Budget proposes collections of \$116 million to offset a portion of the CFTC's annual appropriation, providing total CFTC funding of \$365 million in 2023. CFTC fees would be designed in a way that supports market access, liquidity, and the efficiency of the Nation's derivatives markets.

In anticipation of large whistleblower awards that could have depleted the Customer Protection Fund, P.L. 117–025 established a separate account in the Treasury for \$10 million dollars for obligations related to the administrative and personnel expenses of the Whistleblower Office and the Office of Customer Education and Outreach. The account can only cover these non-award expenses when there are insufficient unobligated balances of the Customer Protection Fund to pay for them. Pursuant to P.L. 117–025, amounts transferred to this account will remain available until October 1, 2022, at which point they will be returned to the Customer Protection Fund.

Section 748 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203) (the Dodd-Frank Act) amended the Commodity Exchange Act (7 U.S.C. 1 et seq.) (CEA) to establish the Customer Protection Fund (Fund). The Fund is used to pay whistleblower awards, finance customer education initiatives, and administer the programs. The Dodd-Frank Act also authorized the Commodity Futures Trading Commission (Commission) to issue rules implementing incentives and protections for whistleblowers and to conduct customer education initiatives designed to help customers protect themselves against fraud and other violations of the CEA.

The Commission deposits monetary sanctions it collects in covered judicial or administrative actions into this revolving fund. The Commission may deposit such sanctions unless the balance in the Fund at the time the sanction is collected exceeds \$100 million. The Commission does not deposit restitution awarded to victims into the Fund.

The Commission is required to submit an annual report on the whistleblower award program and customer education initiatives to the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives. The report includes: a description of the number of whistleblower awards granted, and the types of cases in which these awards were granted, during the preceding fiscal year; the balance in the Fund; the amounts credited to and paid from the Fund; and a complete set of audited financial statements.

The U.S. Consumer Product Safety Commission (CPSC) is an independent federal regulatory agency, created in 1972 by the Consumer Product Safety Act (CPSA). In addition to the CPSA, as amended by the Consumer Product Safety Improvement Act of 2008 (CPSIA), and Public Law 112-28, the CPSC also administers other laws, including the Federal Hazardous Substances Act, the Flammable Fabrics Act, the Child Safety Protection Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, the Virginia Graeme Baker (VGB) Pool and Spa Safety Act, and the Children's Gasoline Burn Prevention Act. The 2023 Budget includes a legislative proposal to streamline the mandatory recall requirements in the CPSA to allow CPSC to more quickly and effectively remove hazardous products from the market when needed.

The Corporation for National and Community Service (CNCS) provides service opportunities for Americans of all ages through institutions that include: nonprofits, schools, faith-based and other community organizations, and local governments. CNCS is now operating as AmeriCorps, which is a name adopted after extensive consultations with stakeholders to help streamline, align, and strengthen the agency's brand.

AmeriCorps State and National.—With funds channeled through States, Territories, Tribes, and community-based organizations, AmeriCorps grants enable communities to recruit, train, and place AmeriCorps members to serve in the areas of disaster services, economic opportunity, education, environmental stewardship, healthy futures, and veterans and military families, as directed by the Edward M. Kennedy Serve America Act of 2009.

AmeriCorps National Civilian Community Corps.—AmeriCorps NCCC is a ten-month residential national service program for people ages 18 to 24. AmeriCorps NCCC members are deployed to respond to natural disasters and engage in urban and rural development projects across the nation.

AmeriCorps VISTA.—Provides full-time members to community organizations and public agencies working to resolve local poverty-related problems.

State Service Commission Support Grants.—These grants support the operation of State Service Commissions that administer approximately two-thirds of AmeriCorps State and National grant funds.

Retired Senior Volunteer Program.—RSVP grants support volunteers aged 55 and older with service opportunities, including mentoring children and providing independent living services to adults.

Foster Grandparent Program.—Grants provide low-income volunteers age 55 and older with service opportunities to provide one-on-one mentoring and support to at-risk children.

Senior Companion Program.—Grants support low-income volunteers who provide companionship, transportation, help with light chores, and respite to assist seniors and people with disabilities to remain in their own homes.

Innovation, Demonstration, and Assistance.—These initiatives and programs are aimed at incubating new ideas, while expanding proven initiatives that address specific community needs. For example, the Volunteer Generation Fund focuses on strengthening the ability of nonprofits and other organizations to recruit, retain, and manage volunteers.

Evaluation.—This activity supports the design and implementation of research and evaluation studies and facilitates the use of evidence and evaluation by AmeriCorps and national service organizations.

The National Service Trust Fund account is a consolidation of two trust funds. In one, gifts and contributions from individuals and organizations are deposited for use in furthering program goals. In the other, funds appro-

priated to make educational awards to eligible national service program participants are maintained until they are used.

ADMINISTRATIVE PROVISIONS

SEC. 401. *CNCS shall make any significant changes to program requirements, service delivery or policy only through public notice and comment rulemaking. For fiscal year 2023, during any grant selection process, an officer or employee of CNCS shall not knowingly disclose any covered grant selection information regarding such selection, directly or indirectly, to any person other than an officer or employee of CNCS that is authorized by CNCS to receive such information.*

SEC. 402. *AmeriCorps programs receiving grants under the National Service Trust program shall meet an overall minimum share requirement of 24 percent for the first 3 years that they receive AmeriCorps funding, and thereafter shall meet the overall minimum share requirement as provided in section 2521.60 of title 45, Code of Federal Regulations, without regard to the operating costs match requirement in section 121(e) or the member support Federal share limitations in section 140 of the 1990 Act, and subject to partial waiver consistent with section 2521.70 of title 45, Code of Federal Regulations.*

SEC. 403. *Donations made to CNCS under section 196 of the 1990 Act for the purposes of financing programs and operations under titles I and II of the 1973 Act or subtitle B, C, D, or E of title I of the 1990 Act shall be used to supplement and not supplant current programs and operations.*

SEC. 404. *In addition to the requirements in section 146(a) of the 1990 Act, use of an educational award for the purpose described in section 148(a)(4) shall be limited to individuals who are veterans as defined under section 101 of the Act.*

SEC. 405. *For the purpose of carrying out section 189D of the 1990 Act—*

(1) *entities described in paragraph (a) of such section shall be considered "qualified entities" under section 3 of the National Child Protection Act of 1993 ("NCPA");*

(2) *individuals described in such section shall be considered "volunteers" under section 3 of NCPA; and*

(3) *State Commissions on National and Community Service established pursuant to section 178 of the 1990 Act, are authorized to receive criminal history record information, consistent with Public Law 92-544.*

SEC. 406. *Notwithstanding sections 139(b), 146 and 147 of the 1990 Act, an individual who successfully completes a term of service of not less than 1,200 hours during a period of not more than one year may receive a national service education award having a value of 70 percent of the value of a national service education award determined under section 147(a) of the Act.*

SEC. 407. *Section 148(f)(2)(A)(i) of the 1990 Act shall be applied for this fiscal year by striking "a national service program that receives a grant under subtitle C" and inserting "an approved national service position".*

SEC. 408. (a) *Section 137(a)(5) of the 1990 Act shall be applied in fiscal year 2023 as if the following were inserted before the period: ", or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)".*

(b) *Section 146(a)(3) of the 1990 Act shall be applied in fiscal year 2023 as if the following were inserted before the period: ", or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)".*

(c) *Notwithstanding sections 141 and 146 of the 1990 Act, or any other provision of law, a participant in a national service program carried out under the authority of the 1973 Act shall be eligible for the national service educational award described in subtitle D of title I of the 1990 Act if the participant—*

(1) *meets the criteria specified in paragraphs (1) through (4) of subsection (a) of section 137 of the 1990 Act; and*

(2) *is a citizen or national of the United States or lawful permanent resident alien of the United States, is able to provide evidence from the Department of Homeland Security that he or she is in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident, or has submitted a request for administrative relief pursuant to the policy established in the memorandum of the Secretary of Homeland Security dated June 15, 2012, and entitled 'Exercising Discretion with Respect to Individuals Who Came to the United States as Children' (Deferred Action for Childhood Arrivals)".*

SEC. 409. *An individual in an approved national service position in a program under section 152(a) of the 1990 Act may, upon the approval of the Director of the*

National Civilian Community Corps, continue in a term of service for up to 180 days beyond the period otherwise specified in section 153(d), or 90 days beyond the period otherwise specified in section 154(c).

SEC. 410. (a) Notwithstanding sections 139, 147, 153, and 154 of the 1990 Act, the Director of the National Civilian Community Corps may enter into agreements with eligible individuals to participate in a National Civilian Community Corps program for a period of not less than 90 days and not more than 180 days.

(b) An eligible individual who enters into an agreement with the Director under subsection (a) may receive an educational award in an amount that is proportional to the full-time national service educational award authorized under section 147(a) of the 1990 Act, based on the length of service completed.

(c) For purposes of this section, the term "eligible individual" means an individual who is at least 18 years of age and not more than 26 years of age as of the date the term of service commences.

CORPORATION FOR PUBLIC BROADCASTING

For payment to the Corporation for Public Broadcasting ("CPB"), as authorized by the Communications Act of 1934, an amount which shall be available within limitations specified by that Act, for the fiscal year 2025, \$565,000,000: Provided, That none of the funds made available to CPB by this Act shall be used to pay for receptions, parties, or similar forms of entertainment for Government officials or employees: Provided further, That none of the funds made available to CPB by this Act shall be available or used to aid or support any program or activity from which any person is excluded, or is denied benefits, or is discriminated against, on the basis of race, color, national origin, religion, or sex: Provided further, That none of the funds made available to CPB by this Act shall be used to apply any political test or qualification in selecting, appointing, promoting, or taking any other personnel action with respect to officers, agents, and employees of CPB.

In addition, for the costs associated with replacing and upgrading the public broadcasting interconnection system, including the costs of interconnection facilities and operations under subsections (k)(3)(A)(i)(II) and (k)(3)(A)(iv)(I) of section 396 of the Communications Act of 1934, and for other technologies and services that create infrastructure and efficiencies within the public media system, \$60,000,000: Provided, That such amounts shall be in addition to any other funds available for such purposes.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Budget proposes an advance appropriation of \$565 million for the Corporation for Public Broadcasting (CPB) for fiscal year 2025. In 1975, Congress first agreed to begin providing CPB with a two-year advance appropriation to support long-range financing planning and to insulate programming decisions. This commitment of future Federal dollars helps leverage investments from other sources and gives producers essential lead time to plan, design, create, and support programming and services. CPB uses funding to provide grants to qualified public television and radio stations to be used at their discretion for purposes related to program production or acquisition, as well as for general operations. CPB also supports the production and acquisition of radio and television programs for national distribution. In addition, CPB assists in the financing of several system-wide activities, including interconnection services and limited technical assistance, research, and planning services to improve systemwide capacity and performance.

The Inspector General (IG) Reform Act of 2008 (P.L. 110–409) created the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to address program integrity, efficiency, and effectiveness issues that transcend individual Government agencies and to increase the professionalism and effectiveness of IG staff.

Pursuant to Section 7 of the Inspector General Reform Act of 2008, the revolving fund provides resources for CIGIE activities primarily through interagency funding, which includes member contributions and tuition. Additional appropriations are provided for mandated activities such as Oversight.gov. Consistent with prior years, CIGIE plans to collect member contributions for 2023 during the second half of 2022, to be used primarily for the CIGIE Training Institute and operations. Although CIGIE will collect the required member contributions for 2023 from agency IGs in the second half of 2022, the Budget includes funds in individual IG budgets that are dedicated to CIGIE and will be collected in 2023 for use in 2024.

Agency (CSOSA) for the District of Columbia as an independent Federal agency to perform community supervision of D.C. Code offenders. CSOSA assumed the adult probation function from the D.C. Superior Court and the parole supervision function from the D.C. Board of Parole. The Pretrial Services Agency for the District of Columbia, responsible for supervising pretrial defendants, is an independent entity within CSOSA with its own budget and organizational structure. The mission of CSOSA is to increase public safety, prevent crime, reduce recidivism, and support the fair administration of justice in close collaboration with the community.

The CSOSA appropriation supports the Community Supervision Program and the Pretrial Services Agency.

Community Supervision Program.—This activity provides supervision of adult offenders on probation, parole, or supervised release, consistent with a crime prevention strategy that emphasizes public safety and successful reintegration. The Community Supervision Program employs an integrated system of close supervision, drug testing, graduated sanctions, treatment, transitional housing, and other offender support services, including services from community and faith-based collaborations. The Community Supervision Program also develops and provides the courts and the U.S. Parole Commission with critical information for probation, parole, and supervised release decisions.

Pretrial Services Agency.—This activity assists judicial officers in both the D.C. Superior Court and the U.S. District Court for the District of Columbia by formulating release recommendations and providing supervision and treatment services to defendants that reasonably assure that individuals on conditional release return to court and do not engage in criminal activity pending their trial and/or sentencing. The Pretrial Services Agency is responsible for enforcing conditions of release, conducting drug testing, administering graduated sanctions, referring defendants to treatment and other social services, and reporting to the courts defendants' compliance with their conditions of release.

The Defense Nuclear Facilities Safety Board, an independent, non-regulatory agency within the Executive Branch, is responsible for evaluating the content and implementation of the standards relating to the design, construction, operation, and decommissioning of Department of Energy (DOE) defense nuclear facilities. The Board also reviews the design of new DOE defense nuclear facilities and periodically reviews and monitors construction of such facilities to ensure adequate protection of public and worker health and safety. The Board is also responsible for investigating any event or practice at a defense nuclear facility that has or may adversely affect public health and safety. The Board makes specific recommendations to the Secretary of Energy on measures that should be adopted to protect both public and employee health and safety.

The Budget provides \$30.1 million for the Delta Regional Authority (DRA). Established by Congress in 2000, DRA is a Federal-State partnership created to address the economic needs of the eight-state or 252 county/parish Mississippi Delta region. DRA's economic development investments, including regional planning, support the creation and sustainability of strong local and regional economies. Leveraging private and non-profit sectors, DRA's strategic investments support projects in the following categories: basic public infrastructure, transportation infrastructure, business development with an emphasis in entrepreneurship, and workforce development, as well as increasing access to quality healthcare.

The Budget provides \$15.1 million for the Denali Commission. The Denali Commission was established by the Denali Commission Act of 1998 and is composed of seven members including the Federal Co-Chair. Denali's mission is to promote and provide sustainable infrastructure improvement, job training, and other economic development services that improve health, safety, and economic self-sufficiency within rural communities in Alaska and alleviate the long-term economic disparities suffered by Alaska Native communities.

The Budget estimates \$3.5 million from the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. The Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (P.L. 105–277) established the annual transfer of interest from the investment of the Trans-Alaska Pipeline Liability Fund balance into the Oil Spill Liability Trust Fund for subsequent transfer to the Denali Commission. As required by the Act, the Denali Commission, in consultation with the Coast Guard, developed a program to use these funds to repair or replace bulk fuel storage tanks in Alaska that were not in compliance with Federal law, including the Oil Pollution Act of 1990, or State law.

Under the National Capital Revitalization and Self-Government Improvement Act of 1997, the Federal Government is required to finance the District of Columbia Courts. This payment to the District of Columbia Courts funds the operations of the District of Columbia Court of Appeals, Superior Court, and the Court System, as well as capital improvements.

The Budget provides resources to support the D.C. Courts' core functions. In addition, the Budget provides resources for capital improvements neces-

sary to renovate the historic Recorder of Deeds building, to maintain court facilities in Judiciary Square, and to maintain and update technology. Additional language clarifies the District of Columbia Courts authority to procure vehicles for official business.

By law, the Courts' annual budget includes estimates of the expenditures for the operations of the District of Columbia Courts prepared by the Joint Committee on Judicial Administration in the District of Columbia and the President's recommendation for funding the District of Columbia Courts. The President's recommended level of \$295.6 million includes \$244.3 million for the District of Columbia Court of Appeals, the Superior Court of the District of Columbia, and the District of Columbia Court System operations and \$51.3 million for capital improvements for District courthouse facilities. Under a separate transmittal to the Congress, the District of Columbia Courts are requesting \$362.4 million: \$244.8 million for operations and \$117.6 million for capital improvements.

FEDERAL PAYMENT FOR DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

For payments authorized under section 11–2604 and section 11–2605, D.C. Official Code (relating to representation provided under the District of Columbia Criminal Justice Act), payments for counsel appointed in proceedings in the Family Court of the Superior Court of the District of Columbia under chapter 23 of title 16, D.C. Official Code, or pursuant to contractual agreements to provide guardian ad litem representation, training, technical assistance, and such other services as are necessary to improve the quality of guardian ad litem representation, payments for counsel appointed in adoption proceedings under chapter 3 of title 16, D.C. Official Code, and payments authorized under section 21–2060, D.C. Official Code (relating to services provided under the District of Columbia Guardianship, Protective Proceedings, and Durable Power of Attorney Act of 1986), \$46,005,000, to remain available until expended: Provided, That funds provided under this heading shall be administered by the Joint Committee on Judicial Administration in the District of Columbia: Provided further, That, notwithstanding any other provision of law, this appropriation shall be apportioned quarterly by the Office of Management and Budget and obligated and expended in the same manner as funds appropriated for expenses of other Federal agencies: Provided further, That of the unobligated balances from prior year appropriations made available under the heading "Federal Payment for Defender Services in District of Columbia Courts", \$22,000,000, are hereby permanently cancelled not later than September 30, 2023.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

Under three Defender Services programs, the District of Columbia Courts appoint and compensate attorneys to represent persons who are financially unable to obtain such representation on their own. The Defender Services programs are the Criminal Justice Act program, which provides court-appointed attorneys to indigent persons who are charged with criminal offenses; the Counsel for Child Abuse and Neglect program, which provides court-appointed attorneys for family proceedings in which child neglect is alleged or where the termination of the parent-child relationship is under consideration and the parent, guardian, or custodian of the child is indigent; and the Guardianship program, which provides for the representation and protection of mentally incapacitated individuals and minors whose parents are deceased. In addition to legal representation, these programs provide indigent persons with services such as transcripts of court proceedings, expert witness testimony, foreign and sign language interpretation, investigations, and genetic testing. The President's recommended funding level for Defender Services is \$46.0 million, the same as the Courts' request, and includes a one-time cancellation of \$22.0 million in unobligated balances in the account. Further, the Budget includes language permitting the District of Columbia Courts to set the rate of pay for court-appointed attorneys, capped at the rate paid in Federal courts, and for investigative services. The current attorney hourly rate was set in 2009 at \$90; for comparison, the current Federal rate is \$158 (75% higher). The ability to set a higher rate will increase the Courts' ability to attract qualified attorneys.

The Superior Court of the District of Columbia administers the Crime Victims Compensation Fund, which finances assistance for innocent victims of violent crime, survivors of homicide victims, and dependent family members of homicide victims. The program provides compensation for certain costs related to the crime, such as medical expenses, temporary emergency housing, and funeral expenses. The Fund is financed through assessments imposed in criminal cases, court fines and fees, and a grant from the U.S. Department of Justice. Under the 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States (P.L. 107–206), one half of the Fund's unobligated balances at the end of each year are transferred to the District of Columbia Government for outreach activities designed to increase the number of crime victims who apply for compensation.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year, beginning in 1998, from the General Fund of the Treasury into the District of Columbia Judicial Retirement and Survivors Annuity Fund (Judicial Fund). Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund the normal cost and administrative expenses for the year. This account receives the annual payments from the General Fund and immediately transfers these amounts into the Judicial Fund.

DISTRICT OF COLUMBIA GENERAL AND SPECIAL PAYMENTS

The District of Columbia receives direct Federal payments for a number of local programs in recognition of the District's unique status as the seat of the Federal Government. These General and Special Payments are separate from and in addition to the District's local budget, which is funded through local revenues.

Federal Funds

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

For a Federal payment to the District of Columbia, to be deposited into a dedicated account, for a nationwide program to be administered by the Mayor, for District of Columbia resident tuition support, \$20,000,000, to remain available until expended: Provided, That such funds, including any interest accrued thereon, may be used on

behalf of eligible District of Columbia residents to pay an amount based upon the difference between in-State and out-of-State tuition at public institutions of higher education, or to pay up to \$2,500 each year at eligible private institutions of higher education: Provided further, That the awarding of such funds may be prioritized on the basis of a resident's academic merit, the income and need of eligible students and such other factors as may be authorized: Provided further, That the District of Columbia government shall maintain a dedicated account for the Resident Tuition Support Program that shall consist of the Federal funds appropriated to the Program in this Act and any subsequent appropriations, any unobligated balances from prior fiscal years, and any interest earned in this or any fiscal year: Provided further, That the account shall be under the control of the District of Columbia Chief Financial Officer, who shall use those funds solely for the purposes of carrying out the Resident Tuition Support Program: Provided further, That the Office of the Chief Financial Officer shall provide a quarterly financial report to the Committees on Appropriations of the House of Representatives and the Senate for these funds showing, by object class, the expenditures made and the purpose therefor.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The D.C. Tuition Assistance Grant program enables students from the District of Columbia to attend eligible public universities and colleges nationwide at in-state tuition rates. The program also provides grants for students to attend private institutions in the D.C. metropolitan area or private Historically Black Colleges and Universities nationwide, as well as public 2-year community colleges. The Budget proposes to increase the annual and lifetime grant limits, which have not been adjusted since the program's creation, to partially address the increasing costs of higher education.

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

For a Federal payment for a school improvement program in the District of Columbia, \$52,500,000, to remain available until expended, for payments authorized under the Scholarships for Opportunity and Results Act (division C of Public Law 112–10): Provided, That, to the extent that funds are available for opportunity scholarships and following the priorities included in section 3006 of such Act, the Secretary of Education shall make scholarships available to students eligible under section 3013(3) of such Act (Public Law 112–10; 125 Stat. 211) including students who were not offered a scholarship during any previous school year: Provided further, That within funds provided for opportunity scholarships up to \$1,750,000 shall be for the activities specified in sections 3007(b) through 3007(d) of the Act and up to \$500,000 shall be for the activities specified in section 3009 of the Act.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing

The Budget includes \$5 million to fund the D.C. Department of Health's continued efforts to prevent the spread of HIV/AIDS in the District. This funding will allow the District to focus on service saturation in areas of combined high risk and high poverty in order to ensure that ward-level counseling and testing, prevention, and treatment services are readily available and fully utilized. Funding will also be used to bolster social marketing and outreach campaigns for these important public health programs. The Budget also includes \$8 million for the D.C. Water and Sewer Authority to continue implementation of the Combined Sewer Overflow Long-Term Plan, \$2.45 million for the Criminal Justice Coordinating Council, \$0.63 million for judicial commissions, and \$0.6 million for the D.C. National Guard.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE
DISTRICT OF COLUMBIA

For a Federal payment of necessary expenses, as determined by the Mayor of the District of Columbia in written consultation with the elected county or city officials of surrounding jurisdictions, \$30,000,000, to remain available until expended, for the costs of providing public safety at events related to the presence of the National Capital in the District of Columbia, including support requested by the Director of the United States Secret Service in carrying out protective duties under the direction of the Secretary of Homeland Security, and for the costs of providing support to respond to immediate and specific terrorist threats or attacks in the District of Columbia or surrounding jurisdictions.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The National Capital Revitalization and Self-Government Improvement Act of 1997, as amended, requires the Secretary of the Treasury to make payments at the end of each fiscal year from the General Fund of the Treasury into the District of Columbia Federal Pension Fund. This account receives the annual payments from the General Fund and immediately transfers these amounts into the District of Columbia Federal Pension Fund. Annual payments consist of (1) amounts necessary to amortize: the original unfunded liability over 30 years, the net gain or loss (based on experience) over 10 years, and any other changes in actuarial liability over 20 years and (2) amounts necessary to fund administrative expenses for the year.

The 1990 District of Columbia Appropriations Act established a system "to improve the means by which the District of Columbia (now the District of Columbia Water and Sewer Authority) is paid for water and sanitary sewer services furnished to the Government of the United States or any department, agency, or independent establishment thereof." Each agency is required to pay on a quarterly basis 25 percent of its estimated yearly bill into this account. If an agency fails to pay its obligation on time, the Treasury Department is authorized to pay the full government-wide bill by making up the missed agency payment(s) with a permanent, indefinite appropriation, which must then be reimbursed by the appropriate agency or agencies.

TITLE VIII—GENERAL PROVISIONS—DISTRICT OF COLUMBIA

(INCLUDING TRANSFERS OF FUNDS)

SEC. 801. There are appropriated from the applicable funds of the District of Columbia such sums as may be necessary for making refunds and for the payment of legal settlements or judgments that have been entered against the District of Columbia government.

SEC. 802. None of the Federal funds provided in this Act shall be used for publicity or propaganda purposes or implementation of any policy including boycott designed to support or defeat legislation pending before Congress or any State legislature.

SEC. 803. (a) None of the Federal funds provided under this Act to the agencies funded by this Act, both Federal and District government agencies, that remain available for obligation or expenditure in fiscal year 2023, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be available for obligation or expenditures for an agency through a reprogramming of funds which—

- (1) creates new programs;
- (2) eliminates a program, project, or responsibility center;
- (3) establishes or changes allocations specifically denied, limited or increased under this Act;
- (4) increases funds or personnel by any means for any program, project, or responsibility center for which funds have been denied or restricted;
- (5) re-establishes any program or project previously deferred through reprogramming;
- (6) augments any existing program, project, or responsibility center through a reprogramming of funds in excess of \$3,000,000 or 10 percent, whichever is less; or
- (7) increases by 20 percent or more personnel assigned to a specific program, project or responsibility center, unless prior notice is provided to the Committees on Appropriations of the House of Representatives and the Senate.

(b) The District of Columbia government is authorized to approve and execute reprogramming and transfer requests of local funds under this title through November 7, 2023.

SEC. 804. None of the Federal funds provided in this Act may be used by the District of Columbia to provide for salaries, expenses, or other costs associated with the offices of United States Senator or United States Representative under section 4(d) of the District of Columbia Statehood Constitutional Convention Initiatives of 1979 (D.C. Law 3-171; D.C. Official Code, sec. 1-123).

SEC. 805. Except as otherwise provided in this section, none of the funds made available by this Act or by any other Act may be used to provide any officer or employee of the District of Columbia with an official vehicle unless the officer or employee uses the vehicle only in the performance of the officer's or employee's official duties. For purposes of this section, the term "official duties" does not include travel between the officer's or employee's residence and workplace, except in the case of—

- (1) an officer or employee of the Metropolitan Police Department who resides in the District of Columbia or is otherwise designated by the Chief of the Department;
- (2) at the discretion of the Fire Chief, an officer or employee of the District of Columbia Fire and Emergency Medical Services Department who resides in the District of Columbia and is on call 24 hours a day;
- (3) at the discretion of the Director of the Department of Corrections, an officer or employee of the District of Columbia Department of Corrections who resides in the District of Columbia and is on call 24 hours a day;
- (4) at the discretion of the Chief Medical Examiner, an officer or employee of the Office of the Chief Medical Examiner who resides in the District of Columbia and is on call 24 hours a day;
- (5) at the discretion of the Director of the Homeland Security and Emergency Management Agency, an officer or employee of the Homeland Security and Emergency Management Agency who resides in the District of Columbia and is on call 24 hours a day;
- (6) the Mayor of the District of Columbia; and

(7) the Chairman of the Council of the District of Columbia.

SEC. 806. (a) None of the Federal funds contained in this Act may be used by the District of Columbia Attorney General or any other officer or entity of the District government to provide assistance for any petition drive or civil action which seeks to require Congress to provide for voting representation in Congress for the District of Columbia.

(b) Nothing in this section bars the District of Columbia Attorney General from reviewing or commenting on briefs in private lawsuits, or from consulting with officials of the District government regarding such lawsuits.

SEC. 807. None of the Federal funds contained in this Act may be used to distribute any needle or syringe for the purpose of preventing the spread of blood borne pathogens in any location that has been determined by the local public health or local law enforcement authorities to be inappropriate for such distribution.

SEC. 808. Nothing in this Act may be construed to prevent the Council or Mayor of the District of Columbia from addressing the issue of the provision of contraceptive coverage by health insurance plans, but it is the intent of Congress that any legislation enacted on such issue should include a "conscience clause" which provides exceptions for religious beliefs and moral convictions.

SEC. 809. (a) None of the Federal funds contained in this Act may be used to enact or carry out any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative.

(b) No funds available for obligation or expenditure by the District of Columbia government under any authority may be used to enact any law, rule, or regulation to legalize or otherwise reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (21 U.S.C. 801 et seq.) or any tetrahydrocannabinols derivative for recreational purposes.

SEC. 810. (a) No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council of the District of Columbia, a revised appropriated funds operating budget in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1-204.42), for all agencies of the District of Columbia government for fiscal year 2023 that is in the total amount of the approved appropriation and that realigns all budgeted data for personal services and other-than-personal services, respectively, with anticipated actual expenditures.

(b) This section shall apply only to an agency for which the Chief Financial Officer for the District of Columbia certifies that a reallocation is required to address unanticipated changes in program requirements.

SEC. 811. No later than 30 calendar days after the date of the enactment of this Act, the Chief Financial Officer for the District of Columbia shall submit to the appropriate committees of Congress, the Mayor, and the Council for the District of Columbia, a revised appropriated funds operating budget for the District of Columbia Public Schools that aligns schools budgets to actual enrollment. The revised appropriated funds budget shall be in the format of the budget that the District of Columbia government submitted pursuant to section 442 of the District of Columbia Home Rule Act (D.C. Official Code, sec. 1-204.42).

SEC. 812. (a) Amounts appropriated in this Act as operating funds may be transferred to the District of Columbia's enterprise and capital funds and such amounts, once transferred, shall retain appropriation authority consistent with the provisions of this Act.

(b) The District of Columbia government is authorized to reprogram or transfer for operating expenses any local funds transferred or reprogrammed in this or the four prior fiscal years from operating funds to capital funds, and such amounts, once transferred or reprogrammed, shall retain appropriation authority consistent with the provisions of this Act.

(c) The District of Columbia government may not transfer or reprogram for operating expenses any funds derived from bonds, notes, or other obligations issued for capital projects.

SEC. 813. None of the Federal funds appropriated in this Act shall remain available for obligation beyond the current fiscal year, nor may any be transferred to other appropriations, unless expressly so provided herein.

SEC. 814. Except as otherwise specifically provided by law or under this Act, not to exceed 50 percent of unobligated balances remaining available at the end of fiscal year 2023 from appropriations of Federal funds made available for salaries and expenses for fiscal year 2023 in this Act, shall remain available through September 30, 2024, for each such account for the purposes authorized: Provided, That a notice shall be submitted to the Committees on Appropriations of the House of Representatives and the Senate prior to the expenditure of such funds: Provided

further, That these notices shall be made in compliance with reprogramming guidelines outlined in section 803 of this Act.

SEC. 815. (a)

(1) During fiscal year 2024, during a period in which neither a District of Columbia continuing resolution or a regular District of Columbia appropriation bill is in effect, local funds are appropriated in the amount provided for any project or activity for which local funds are provided in the Act referred to in paragraph (2) (subject to any modifications enacted by the District of Columbia as of the beginning of the period during which this subsection is in effect) at the rate set forth by such Act.

(2) The Act referred to in this paragraph is the Act of the Council of the District of Columbia pursuant to which a proposed budget is approved for fiscal year 2024 which (subject to the requirements of the District of Columbia Home Rule Act) will constitute the local portion of the annual budget for the District of Columbia government for fiscal year 2024 for purposes of section 446 of the District of Columbia Home Rule Act (sec. 1–204.46, D.C. Official Code).

(b) Appropriations made by subsection (a) shall cease to be available—

(1) during any period in which a District of Columbia continuing resolution for fiscal year 2024 is in effect; or

(2) upon the enactment into law of the regular District of Columbia appropriation bill for fiscal year 2024.

(c) An appropriation made by subsection (a) is provided under the authority and conditions as provided under this Act and shall be available to the extent and in the manner that would be provided by this Act.

(d) An appropriation made by subsection (a) shall cover all obligations or expenditures incurred for such project or activity during the portion of fiscal year 2024 for which this section applies to such project or activity.

(e) This section shall not apply to a project or activity during any period of fiscal year 2024 if any other provision of law (other than an authorization of appropriations)—

(1) makes an appropriation, makes funds available, or grants authority for such project or activity to continue for such period; or

(2) specifically provides that no appropriation shall be made, no funds shall be made available, or no authority shall be granted for such project or activity to continue for such period.

(f) Nothing in this section shall be construed to affect obligations of the government of the District of Columbia mandated by other law.

SEC. 816. (a) Section 244 of the Revised Statutes of the United States relating to the District of Columbia (sec. 9–1201.03, D.C. Official Code) does not apply with respect to any railroads installed pursuant to the Long Bridge Project.

(b) In this section, the term "Long Bridge Project" means the project carried out by the District of Columbia and the Commonwealth of Virginia to construct a new Long Bridge adjacent to the existing Long Bridge over the Potomac River, including related infrastructure and other related projects, to expand commuter and regional passenger rail service and to provide bike and pedestrian access crossings over the Potomac River.

SEC. 817. Not later than 45 days after the last day of each quarter, each Federal and District government agency appropriated Federal funds in this Act shall submit to the Committees on Appropriations of the House of Representatives and the Senate a quarterly budget report that includes total obligations of the Agency for that quarter for each Federal funds appropriation provided in this Act, by the source year of the appropriation.

SEC. 818. Except as expressly provided otherwise, any reference to "this Act" contained in this title or in title IV shall be treated as referring only to the provisions of this title or of title IV.

SEC. 819. Section 3 of the District of Columbia College Access Act of 1999 (Public Law 106–98; D.C. Official Code, sec. 38–2702), is amended—

(1) in subsection (a)(2)(A), by striking "\$10,000" and inserting "\$15,000";

(2) in subsection (a)(2)(B), by striking "\$50,000" and inserting "\$75,000";

(3) in subsection (b)(1)(A), by striking the word "and" at the end;

(4) by redesignating subparagraph (B) of paragraph (1) of subsection (b) as subparagraph (C);

(5) by inserting after subparagraph (A) of paragraph (1) of subsection (b) the following new subparagraph:

"(B) After making reductions under subparagraph (A) of this paragraph, ratably reduce the amount of the tuition and fee payments for students receiving more than \$10,000 annually; and"; and

(6) in subsection (b)(1)(C), as so redesignated, by striking "subparagraph (A)" and inserting "subparagraphs (A) and (B)".

SEC. 820. ADJUSTMENTS IN COMPENSATION RATES FOR CERTAIN PERSONNEL.

(a) Attorneys Representing Indigent Defendants.

(1) *IN GENERAL.* Section 11–2604(a), District of Columbia Official Code, is amended by striking "at a fixed rate of \$90 per hour" and inserting "an hourly rate not to exceed the rate payable under section 3006A(d)(1) of title 18, United States Code".

(2) *EFFECTIVE DATE.* The amendments made by this section shall apply with respect to cases and proceedings initiated on or after the date of the enactment of this Act.

(b) *Criminal Justice Investigators.*

(1) *IN GENERAL.* Section 11–2605, District of Columbia Official Code, is amended in subsections (b) and (c) by striking "(or, in the case of investigative services, a fixed rate of \$25 per hour)" each place it appears.

(2) *EFFECTIVE DATE.* The amendments made by this section shall apply with respect to investigative services provided in connection with cases and proceedings initiated on or after the date of the enactment of this Act.

The Election Assistance Commission will administer grants under the Election Innovation Grants program. Consistent with the purposes of the Help America Vote Act of 2002, the EAC will award grants to States and eligible units of local government on a competitive basis for projects that will have significant national, regional, or local impact improving the administration of Federal elections. Eligible uses of funding will include capital investment to accelerate modernization of secure voting systems, efforts to expand voter access, including vote-by-mail, voter education, language proficiency, usability, voter technology, and other initiatives to enhance and secure administration of Federal elections that do not meaningfully impair access.

The Budget proposes legislation to support critical state and local election infrastructure, through a significant and sustained Federal investment to improve equitable access and ensure our elections are secure. The legislation will provide \$10 billion in 2023, to be expended over ten years, through formula grants administered by the Election Assistance Commission, to enable crucial election-related capital investments such as upgrades to registration databases, voting systems, and physical structures; support recruitment, training, and retention of election workers; improve physical and cyber security; and improve voters' access to reliable elections.

The 2023 Budget is an opportunity to advance the work the Commission began with the adoption of the Strategic Plan for 2018–2022. The strategic plan outlines a framework for achieving the EEOC's mission to "Prevent and Remedy Unlawful Employment Discrimination and advance equal opportunity for all in the workplace". The plan's strategic objectives include: 1) Combat and prevent employment discrimination through strategic law enforcement; and 2) Prevent employment discrimination and promote inclusive workplaces through education and outreach. The Budget will permit EEOC to improve efficiencies through data resource consolidation, promote knowledge sharing, and foster communication to avoid unnecessary duplication of effort and continue its standards of providing quality service to the public through enforcement and prevention activities. EEOC's enforcement responsibilities are in two areas: The private sector and the Federal sector.

Private Sector.—EEOC addresses equal employment opportunity in several ways. The agency investigates charges alleging employment discrimination; makes findings on the allegations; resolves charges through mediation; negotiates settlement or conciliation; and litigates cases of employment discrimination by enforcing compliance with existing laws and regulations. The priority for agency resources continues to be litigating systemic cases and maintaining a manageable inventory of cases.

PROGRAM ACCOUNT

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 9104 of title 31, United States Code, as may be necessary in carrying out the program for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country, other than a nuclear-weapon state as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act, that has detonated a nuclear explosive after the date of enactment of this Act.

ADMINISTRATIVE EXPENSES

For administrative expenses to carry out the direct and guaranteed loan and insurance programs, including hire of passenger motor vehicles and services as authorized by section 3109 of title 5, United States Code, and not to exceed \$30,000 for official reception and representation expenses for members of the Board of Directors, not to exceed \$129,800,000, of which up to \$19,470,000 may remain available until September 30, 2024: Provided, That the Export-Import Bank (the Bank) may accept, and use, payment or services provided by transaction participants for legal, financial, or technical services in connection with any transaction for which an application for a loan, guarantee or insurance commitment has been made: Provided further, That notwithstanding chapter 51, subchapter III of chapter 53, and section 5373 of title 5, United States Code, the Board of Directors of the Export-Import Bank of the United States may set an employee's rate of basic pay up to the rate for level III of the Executive Schedule, and this authority may be applied to no more than 35 employees at any point in time and shall remain in effect until September 30, 2023: Provided further, That the Bank shall charge fees for necessary expenses (including special services performed on a contract or fee basis, but not including other personal services) in connection with the collection of moneys owed the Bank, repossession or sale of pledged collateral or other assets acquired by the Bank in satisfaction of moneys owed the Bank, or the investigation or appraisal of any property, or the evaluation of the legal, financial, or technical aspects of any transaction for which an application for a loan, guarantee or insurance commitment has been made, or systems infrastructure: Provided further, That in addition to other funds appropriated for administrative expenses, such fees shall be credited to this account for such purposes, to remain available until expended.

PROGRAM BUDGET APPROPRIATIONS

For the cost of direct loans, loan guarantees, insurance, and tied-aid grants as authorized by section 10 of the Export-Import Bank Act of 1945, as amended, not to exceed \$25,000,000: Provided, That such costs, including the cost of modifying

EXPORT-IMPORT BANK LOANS PROGRAM ACCOUNT—Continued

such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such funds shall remain available until September 30, 2038, for the disbursement of direct loans, loan guarantees, insurance and tied-aid grants obligated in fiscal years 2023, 2024, 2025, and 2026.

RECEIPTS COLLECTED

Receipts collected pursuant to the Export-Import Bank Act of 1945 (Public Law 79–173) and the Federal Credit Reform Act of 1990, in an amount not to exceed the amount appropriated herein, shall be credited as offsetting collections to this account: Provided, That the sums herein appropriated from the General Fund shall be reduced on a dollar-for-dollar basis by such offsetting collections so as to result in a final fiscal year appropriation from the General Fund estimated at \$0.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Export-Import Bank of the United States (EXIM or the Bank) is the official export credit agency of the United States. EXIM is an independent, Federal agency that supports American jobs by facilitating the export of U.S. goods and services. To accomplish its objectives, the Bank's authority and resources are used to: assume commercial and political risks that exporters or private institutions are unwilling or unable to undertake; overcome maturity and other limitations in private sector export financing; assist U.S. exporters to meet officially sponsored foreign export credit competition; and provide leadership and guidance in export financing to the U.S. exporting and banking communities and to foreign borrowers. The Bank provides its export credit support through direct loan, loan guarantee, and insurance programs.

The 2023 Budget estimates that the Bank's export credit support will total \$15.5 billion, and operations and programming will be funded entirely by receipts collected from the Bank's users. The Bank estimates it will collect \$363.3 million in 2023 in receipts authorized in 2023 and prior years.

Consistent with 31 U.S.C. 1105, these amounts will be used to cover administrative expenses in an amount not to exceed \$129.8. Any excess will be deposited in the General Fund of the Treasury. The 2023 Budget requests \$25 million in program budget costs.

As required by the Federal Credit Reform Act of 1990, this account records the costs associated with direct loans and direct grants obligated, and loan guarantees and insurance committed in 1992 and beyond, as well as administrative expenses. The credit transactions are estimated on a present value basis; administrative expenses are estimated on a cash basis.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond. The amounts in this account are a means of financing and are not included in the budget totals. As required by the Export-Import Bank Act of 1945 (P.L. 79-173, as amended), this account includes reserves amounting to not less than five percent of the aggregate amount of disbursed and outstanding loans, guarantees, and insurance of the Bank.

EXIM's liquidating account records all cash flows to and from the Government resulting from all EXIM direct loans obligated and loan guarantees committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance exports. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new EXIM credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

LIMITATION ON ADMINISTRATIVE EXPENSES

Not to exceed \$88,500,000 (from assessments collected from farm credit institutions, including the Federal Agricultural Mortgage Corporation) shall be obligated during the current fiscal year for administrative expenses as authorized under 12 U.S.C. 2249: Provided, That this limitation shall not apply to expenses associated with receiverships: Provided further, That the agency may exceed this limitation by up to 10 percent with notification to the Committees on Appropriations of both Houses of Congress: Provided further, That the purposes of section 3.7(b)(2)(A)(i) of the Farm Credit Act of 1971 (12 U.S.C. 2128(b)(2)(A)(i)), the Farm Credit Administration may exempt, an amount in its sole discretion, from the application of the limitation provided in that clause of export loans described in the clause guaranteed or insured in a manner other than described in subclause (II) of the clause.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The Farm Credit Administration (FCA) is an independent Federal agency that examines and regulates the Farm Credit System (System) for safety and soundness and program compliance. The System is a cooperative agricultural credit system of farm credit banks and associations that lend to farmers, ranchers, and their cooperatives; farm-related businesses; rural homeowners; and rural utilities. FCA also performs the examination and general supervision of Farmer Mac. In addition, FCA will oversee the safety and soundness examinations of the National Consumer Cooperative Bank, which is not a System institution.

As of October 1, 2021, the System was composed of three Farm Credit Banks, one Agricultural Credit Bank, 67 associations, six service corporations, the Federal Farm Credit Banks Funding Corporation, and Farmer Mac.

Assessments based upon estimated administrative expenses are collected from institutions in the System, including Farmer Mac, and are available for administrative expenses. Obligations are incurred within fiscal year budgets approved by the FCA Board. Section 6(g)(1) of the Inspector General Act of 1978, as amended, (IG Act) requires an Inspector General (IG) to include specific information in the budget request that the IG submits to its designated Federal entity to which the IG reports. To fulfill the requirement of Section 6(g)(2) of the IG Act as it pertains to FCA, the FCA Board must in turn include this same information in the budget request that the Agency submits to the President.

The information that the IG Act requires to be included is provided below:

The aggregate budget request for the Office of Inspector General (OIG) is \$2,078,119.

The amount needed for OIG training is \$44,000.

The amount needed to support the Council of the Inspectors General on Integrity and Efficiency is \$8,692.

The FCA IG's budget request for 2023 is being submitted unchanged by the FCA Board.

The Farm Credit System Insurance Corporation (Corporation) was established to insure the timely payment of principal and interest on insured System debt obligations purchased by investors. The Corporation is managed by a three-member board of directors that consists of the same individuals as the Farm Credit Administration Board. However, the same member may not serve as a chair of both entities. The Corporation derives its revenues from insurance premiums collected from insured System banks and from the investment income earned on its investment portfolio. Insurance premiums are assessed on System banks based on the level of adjusted insured obligations outstanding at each bank. Congress established a secure base amount of 2 percent of adjusted outstanding insured System obligations, or such other amount determined by the Corporation's board of directors

to be actuarially sound to maintain in the Insurance Fund. As of September 30, 2021, the Insurance Fund was \$158 million above the 2 percent secure base amount at 2.06 percent. Insurance premium rates are reviewed semiannually. For 2021, the board of directors set premium rates at its January 28, 2021 meeting at 16 basis points on average adjusted insured debt and continued the assessment of the 10 basis point surcharge on the average principal balance outstanding for nonaccrual loans and other-than-temporarily impaired investments. The board of directors again reviewed premiums at its June 17, 2021 meeting and voted to maintain the premium accrual rate on average adjusted insured debt of 16 basis points and continued the assessment of the 10 basis point surcharge on the average principal balance outstanding for nonaccrual loans and other-than-temporarily impaired investments for the remainder of 2021. In January 2022, the Corporation's Board will meet to set insurance premium rates for calendar year 2022. The Corporation has the authority to make refunds of excess Insurance Fund balances.

The Insurance Fund is available for payment of insured System obligations if a System bank defaults on its primary liability. The Insurance Fund is also available to pay the operating costs of the Corporation and to exercise its authority to make loans, borrow, purchase System bank assets or obligations, provide other financial assistance and otherwise act to reduce its exposure to losses.

The Federal Communications Commission (FCC or Commission) works to ensure that rapid and efficient communications are available across the country at a reasonable cost. In support of this mission, the FCC's strategic goals for 2023 are: Pursue a "100 Percent" Broadband Policy; Promote Equity and Inclusion; Empower Consumers; Enhance Public Safety; Advance America's Global Competitiveness and National Security; and Foster Operational Excellence. The 2023 Budget includes an overall request of \$390 million to fund the Commission. Of that amount, the requested funding for the FCC's Inspector General is \$12 million. The Commission is also requesting \$132 million for the Spectrum Auctions Program for 2023.

Pursuant to the Communications Act of 1934, as amended by the Telecommunications Act of 1996 (1996 Act), all telecommunications service providers and certain other providers of telecommunications contribute to the Federal Universal Service Fund (USF) based on a percentage of their interstate and international end-user telecommunications revenues. These companies include wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers. The goals of USF are to increase access to both telecommunications and advanced services, such as high-speed Internet, for all consumers at just, reasonable and affordable rates. The 1996 Act established principles for universal service that specifically focused on increasing access to evolving services for consumers living in rural and insular areas, and for consumers with low incomes. Additional principles called for increased access to high-speed Internet in the nation's schools, libraries and rural health care facilities. The FCC established four programs within the USF to implement the statute. The four programs are: (1) High Cost—ensures consumers in rural, insular, and high cost areas have access to modern communications networks capable of providing voice and broadband service, both fixed and mobile, at rates that are reasonably comparable to those in urban areas; (2) Lifeline (for low-income consumers)—provides a monthly benefit on home or wireless phone and broadband service to eligible households and includes initiatives to expand phone service for residents of Tribal lands; (3) Schools and Libraries (E-rate)—provides funding to schools and libraries to obtain broadband, among other things; and (4) Rural Health Care—provides funding to eligible health care providers for telecommunications and broadband services necessary for the provision of health care. In addition, in 2020 the Commission established the Connected Care Pilot Program, to provide \$100 million in funding for select pilot projects covering 85% of the eligible costs of broadband connectivity, network equipment, and information services necessary to provide connected care services to the intended population over a three year period.

As part of the Americans with Disabilities Act of 1990 Congress amended the Communications Act of 1934 to direct the Federal Communications Commission "to ensure that interstate and intrastate telecommunications relay services (TRS) are available, to the extent possible and in the most efficient manner, to hearing and speech-impaired individuals in the United States." Section 225 of the Communications Act also directs the Commission to prescribe regulations that "generally provide that costs caused by interstate telecommunications relay services shall be recovered from all subscribers for every interstate service and costs caused by intrastate telecommunications relay service shall be recovered from the intrastate jurisdiction." The shared-funding mechanism requires providers of interstate telecommunications services to contribute to a fund that reimburses TRS providers for the cost of providing interstate TRS. All telecommunications service providers and certain other providers of telecommunications contribute to the TRS Fund based on a percentage of their end-user telecommunications revenues. These companies include, but are not limited to, wireline phone companies, wireless phone companies, paging service companies and certain Voice over Internet Protocol (VoIP) providers.

This program provided direct loans for the purpose of purchasing spectrum licenses at the Federal Communications Commission's auctions. The licenses were purchased on an installment basis, which constitutes an extension of credit. The first year of activity for this program was 1996. As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis and administrative expenses are estimated on a cash basis. The FCC no longer offers credit terms on purchases through spectrum auctions. Program activity relates to maintenance and close-out of existing loans.

The Emergency Broadband Connectivity Fund was established in the Consolidated Appropriations Act of 2021 in the amount of \$3.2 billion, and FCC was directed to establish an Emergency Broadband Benefit Program (EBB Program). Under this program, eligible households may receive a discount off the cost of broadband service and certain connected devices during an emergency period relating to the COVID-19 pandemic, and participating providers can receive a reimbursement for such discounts. Pursuant to the requirements in the Infrastructure Investment and Jobs Act, 2021, the EBB Program was modified and extended to establish the Affordable Connectivity Program, which began accepting new enrollments on December 31, 2021. Congress established the Affordable Connectivity Fund for this program in the amount of \$14.2 billion.

The Secure and Trusted Communications Networks Act of 2019 directed the Commission to establish a Reimbursement Program, and as part of the Consolidated Appropriations Act of 2021, \$1.9 billion was appropriated to carry out the program. The Reimbursement Program was established to fund the removal, replacement, and disposal of covered communications equipment or services that pose an unacceptable risk to the national security of the United States or the security and safety of U.S. persons from the networks of providers of advanced communications service.

The Reimbursement Program will provide funding allocations to eligible providers based on their estimated costs. Program recipients can then obtain funding disbursements from their allocation upon showing of actual expenses incurred. Program recipients will have one year from the initial disbursement to complete the permanent removal, replacement, and disposal of covered communications equipment or services with the potential for a general and individual extensions of time.

FEDERAL DEPOSIT INSURANCE CORPORATION

The Federal Deposit Insurance Corporation (FDIC) was created by the Banking Act of 1933 to provide protection for bank depositors and to foster sound banking practices. The Federal Deposit Insurance Corporation Improvement Act of 1991 generally requires the FDIC to use the least costly method to resolve failed banks and mandates that the FDIC take prompt corrective action against under-capitalized financial institutions. To protect depositors, the FDIC is authorized to promulgate and enforce rules and regulations relating to the supervision of insured institutions and to perform other regulatory and supervisory duties consistent with its responsibilities as an insurer.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 or FIRREA (P.L. 101-73) established the Bank Insurance Fund (BIF), the Savings Association Insurance Fund (SAIF), and the Federal Savings and Loan Insurance Corporation (FSLIC) Resolution Fund (FRF). Under the Deposit Insurance Reform Act of 2005, the BIF and SAIF were merged into a new Deposit Insurance Fund (DIF) in 2006.

The primary purpose of the Deposit Insurance Fund (DIF) is to insure deposits and protect the depositors of failed banking institutions. Under the Deposit Insurance Reform Act of 2005, the FDIC's Bank Insurance Fund (BIF) and its Savings Association Insurance Fund (SAIF) were merged into the new DIF on March 31, 2006. Through the DIF, the FDIC resolves and recovers funds disbursed from the assets of failed institutions. The FDIC is authorized to charge risk-based premiums on member institutions to restore and maintain adequate fund reserves, defined as a designated percentage of estimated insured deposits set by the FDIC before the beginning of each year. The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Act) (P.L. 111-203), enacted July 21, 2010, increased the minimum DIF reserve ratio (ratio of the DIF balance to total insured deposits) to 1.35 percent, up from 1.15 percent. In addition to raising the minimum reserve ratio, the Act also: 1) eliminated the FDIC's requirement to rebate premiums when the reserve ratio is between 1.35 and 1.5 percent; 2) gave the FDIC discretion to suspend or limit rebates when the DIF reserve ratio is at least 1.5 percent, effectively removing the 1.5 percent cap

on the DIF; 3) required the FDIC to offset the effect on small insured depository institutions (defined as banks with assets less than \$10 billion) when setting assessments to raise the reserve ratio from 1.15 to 1.35 percent; and 4) permanently increased the insured deposit level to \$250,000 at banks insured by the FDIC. The FDIC Board has issued a final rule setting a long-term (greater than 10 years) reserve ratio target of 2 percent, with the goal of maintaining a positive fund balance during any future economic crises and maintaining a moderate, steady, long-term assessment rate that provides transparency and predictability to the banking sector.

As of September 30, 2020, the DIF balance stood at \$116.4 billion on an accrual basis, measuring expected losses to current balances. This level is equivalent to a reserve ratio of 1.30 percent. Pursuant to the Act, on September 15, 2020, the FDIC adopted a Restoration Plan to restore the DIF reserve ratio to at least the statutory minimum of 1.35 percent within 8 years after, as of June 30, 2020, the DIF reserve ratio fell to 1.30 percent. The decline was a result of strong one-time growth in insured deposits. Projected growth in the DIF balance in the Budget reflects projections of bank failures in line with historical experience and assessment revenue required to increase the reserve ratio over time.

The FSLIC Resolution Fund (FRF) is the ultimate successor to FSLIC assets and liabilities from thrift resolutions prior to August 1989. Beginning in August 1989, the Resolution Trust Corporation (RTC) assumed responsibility for the FSLIC's unresolved cases. On December 31, 1995, the RTC was terminated and its assets and liabilities were transferred to FRF.

Funds for FRF operations have come from: 1) income earned on its assets; 2) liquidation proceeds from receiverships; 3) the proceeds of the sale of bonds by the Financing Corporation; and 4) a portion of insurance premiums paid by Savings Association Insurance Fund (SAIF) members prior to 1993. The Financial Institutions Reform, Recovery, and Enforcement Act or FIRREA (P.L. 101–73) authorizes appropriations to make up for any shortfall. Currently, the FRF consists of two distinct pools of assets and liabilities. One is composed of the assets and liabilities of the FSLIC transferred to the FRF (FRF-FSLIC) and the other is composed of the RTC assets and liabilities (FRF-RTC). The assets of one pool are not available to satisfy obligations of the other. The FRF will continue operations until all of its assets are sold or otherwise liquidated and all its liabilities are satisfied. Any funds remaining in the FRF-FSLIC will be paid to the U.S. Treasury. Any remaining funds of the FRF-RTC will be distributed to the Resolution Funding Corporation to pay interest on its bonds.

Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) established an Orderly Liquidation Authority (OLA) permitting the appointment of the FDIC as receiver of financial companies whose failure and resolution under otherwise applicable Federal or State law is determined to have serious adverse effects on financial stability in the United States. The Federal Reserve Board and the FDIC, the Securities and Exchange Commission (for brokers or dealers) or the Federal Insurance Office (for insurance companies) must recommend in writing that the Secretary of the Treasury appoint the FDIC as the company's receiver.

The Secretary of the Treasury must then, in consultation with the President, determine whether seven criteria authorizing the appointment of the FDIC as receiver for the failing financial company have been satisfied, including finding that resolution under otherwise applicable law would have serious adverse effects on financial stability in the United States.

The FDIC's Office of Inspector General (FDIC OIG) is an independent unit within the FDIC that conducts audits, evaluations, and investigations of corporate activities. In addition, the OIG assists the FDIC in preventing and detecting fraud, waste, abuse, and mismanagement. The OIG was established by the FDIC Board pursuant to the Inspector General Act amendments of 1988 (P.L. 100-504). The Resolution Trust Corporation Completion Act (P.L. 103-204), enacted December 17, 1993, provided that the FDIC Inspector General be appointed by the President and confirmed by the Senate. The Completion Act thus added the FDIC to the list of establishments whose OIGs have separate appropriation accounts under Section 1105(a) of Title 31, United States Code, thereby safeguarding FDIC OIG's independence. Assessments paid to the Deposit Insurance Fund (DIF) by insured financial institutions, and administered by the FDIC, fully fund FDIC OIG's appropriation. To the extent that FDIC OIG performs work in connection with the FSLIC Resolution Fund (FRF), the cost of such work is derived from the FRF.

FEDERAL DRUG CONTROL PROGRAMS

Federal Funds

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses of the Office of National Drug Control Policy's High Intensity Drug Trafficking Areas Program, \$293,500,000, to remain available until September 30, 2024, for drug control activities consistent with the approved strategy for each of the designated High Intensity Drug Trafficking Areas ("HIDTAs"), of which not less than 51 percent shall be transferred to State and local entities for drug control activities and shall be obligated not later than 120 days after enactment of this Act. That up to 49 percent may be transferred to Federal agencies and departments in amounts determined by the Director of the Office of National Drug Control Policy, of which up to \$5,800,000 may be used for auditing services and associated activities and up to \$3,500,000 shall be for a new Grants Management System for use by the Office of National Drug Control Policy: Provided further, That any unexpended funds obligated prior to fiscal year 2021 may be used for any other approved activities of that HIDTA, subject to reprogramming requirements:

Provided further, That the Director shall notify the Committees on Appropriations of the initial allocation of fiscal year 2023 funding among HIDTAs not later than 45 days after enactment of this Act, and shall notify the Committees of planned uses of discretionary HIDTA funding, as determined in consultation with the HIDTA Directors, not later than 90 days after enactment of this Act: Provided further, That upon a determination that all or part of the funds so transferred from this appropriation are not necessary for the purposes provided herein and upon notification to the Committees on Appropriations of the House of Representatives and the Senate, such amounts may be transferred back to this appropriation.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The High Intensity Drug Trafficking Areas (HIDTA) program was established by the Anti-Drug Abuse Act of 1988, as amended, to provide assistance to Federal, State, local, and tribal law enforcement entities operating in those areas most adversely affected by drug trafficking. The HIDTA program provides resources to Federal, State, local, and tribal agencies in each HIDTA region to carry out activities that address the specific drug threats of that region. A central feature of the HIDTA program is the discretion granted to HIDTA Executive Boards to design and carry out activities that reflect the specific drug trafficking threats found in each HIDTA region. This discretion ensures that each HIDTA Executive Board can tailor its strategy and initiatives closely to local conditions and can re-

spond quickly to changes in those conditions. Among the types of activities funded by the HIDTA program are: drug enforcement task forces comprised of multiple Federal, State, local, and tribal agencies designed to dismantle and disrupt drug trafficking organizations; multi-agency intelligence centers that provide drug intelligence to HIDTA initiatives and participating agencies; initiatives to establish or improve interoperability of communications and information systems between and among law enforcement agencies; and investments in technology infrastructure.

This account is for other drug control activities authorized by the Office of National Drug Control Policy Reauthorization Act of 1998, as amended through Public Law 115–271. The funds appropriated support high-priority drug control programs and may be transferred to drug control agencies. For FY 2023, funds appropriated to this account will be used for the following activities:

Drug Free Communities Support Program.—The Drug Free Communities Support (DFC) Program provides small grants (no more than \$125,000 per year for an initial 5-year period) to established local community drug free coalitions. The grants are awarded competitively to community coalitions that organize multiple sectors of a community to focus on local needs as a means for reducing and/or preventing youth substance use. The Budget also proposes to increase the cap on DFC administrative costs from 8 percent to 12 percent due to the significant level of effort required to effectively manage the DFC Program and ensure continued use of evidence-based prevention in all coalitions funded by the DFC Program.

Drug Court Training & Technical Assistance.—This funding is provided to further the development and sustainability of drug courts in the United States through the review and dissemination of science-based methods to overcome barriers to drug court sustainability, provide up-to-date guidance and training to practitioners and inter-disciplinary drug court teams to increase drug court participant retention and completion rates, and provide a state-by-state examination of drug courts.

Anti-Doping Activities.—This funding continues the effort to educate athletes on the dangers of drug use and to eliminate illegal drug use in Olympic and associated sports in the United States.

World Anti-Doping Agency (WADA) Dues.—WADA was established in 1999 as an international independent agency composed and funded equally by the sport movement and governments of the world. Its key activities include scientific research, education, development of anti-doping capacities, and monitoring of the World Anti-Doping Code—the document harmonizing anti-doping policies in all sports and all countries. ONDCP represents the United States before the agency and is responsible for the payment of U.S. dues.

Model Acts Program.—This funding provides resources to: (1) advise states on establishing laws and policies to address illicit drug use issues; and (2) revise such model state drug laws and draft supplementary model state laws to take into consideration changes in illicit drug use issues in the state involved.

Sec. 103 of Public Law 114–198 (Community-based coalition enhancement grants to address local drug crises).—This funding provides grants to eligible entities to implement comprehensive community-wide

strategies that address local drug crises and emerging drug abuse issues within the area served by the eligible entity. The Budget also proposes to increase the cap on administrative costs for these grants from 8 percent to 12 percent due to the significant amount of program management and support required for these grants.

Policy Research.—This funding provides resources to conduct short-turnaround contract research projects to address specific issues concerning policy and in support of the National Drug Control Strategy.

Performance Audits and Evaluations.—This funding provides resources to support performance audits and evaluations to examine the efficiency and effectiveness of federal efforts and provides an avenue for corrective action if the goals/objectives of the National Drug Control Strategy: Performance Review System and the National Drug Control Strategy Assessment are not being met.

The Federal Financial Institutions Examination Council (the Council) was established in 1979 pursuant to the Financial Institutions Regulatory and Interest Rate Control Act of 1978 (FIRA) (P.L. 95-630). In 1989, pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (P.L. 101-73), the Appraisal Subcommittee (ASC) was established within the Council. The Council has limited specified responsibilities regarding the ASC.

The Council is a formal interagency body empowered to prescribe uniform principles, standards, and report forms for the Federal examination of financial institutions; to make recommendations to promote uniformity in the supervision of financial institutions; and to conduct examiner training. Council members include a member of the Board of Governors of the Federal Reserve System, the Chairman of the Federal Deposit Insurance Corporation, the Chairman of the National Credit Union Administration, the Comptroller of the Currency, the Director of the Consumer Financial Protection Bureau, and the Chairman of the State Liaison Committee, which is made up of five representatives from state regulatory agencies that supervise financial institutions.

In addition to its responsibilities under FIRA and FIRREA, the Council was given responsibilities by the Housing and Community Development Act of 1980 (P.L. 96-399) and the Economic Growth and Regulatory Paperwork Reduction Act of 1996 (P.L. 104-208).

The Council's resources are provided by its Federal members and other fees and reimbursements.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (P.L. 101–73) established the Appraisal Subcommittee of the Federal Financial Institutions Examination Council (ASC). The ASC is composed of representatives of the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the National Credit Union Administration, the Office of the Comptroller of the Currency, the Department of Housing and Urban Development, the Consumer Financial Protection Bureau, and the Federal Housing Finance Agency.

The ASC is charged with ensuring that real estate appraisals used in federally-related transactions are performed in accordance with uniform standards by appraisers certified and licensed by the states. Its responsibilities include: 1) monitoring the requirements established by the states for

the certification and licensing of appraisers and the registration and supervision of the operations and activities of appraisal management companies; 2) monitoring the requirements established by the Federal financial institutions' regulatory agencies regarding appraisal standards for federally-related transactions under their jurisdiction; 3) monitoring and reviewing the practices, procedures, activities, and organization of the Appraisal Foundation; 4) maintaining the National Registry of licensed and certified appraisers and appraisal management companies; 5) transmitting an annual report to Congress no later than June 15 of each year; and 6) making grants to the Appraisal Foundation and state appraiser certifying and licensing agencies.

The ASC's activities, including grants awarded to the Appraisal Foundation, were initially funded from a one-time appropriation of \$5 million. These funds were repaid to Treasury in 1998. The ASC is now operating on fee income from 1) appraisal management companies and 2) state-licensed and state-certified real estate appraisers in the National Registry.

The Federal Labor Relations Authority (FLRA) is an independent administrative Federal agency created by Title VII of the Civil Service Reform Act of 1978 (the Statute) with a mission to carry out five statutory responsibilities: 1) determining the appropriateness of units for labor organization representation; 2) resolving complaints of unfair labor practices; 3) adjudicating exceptions to arbitrators' awards; 4) adjudicating legal issues relating to duty to bargain; and 5) resolving impasses during negotiations. All work throughout the agency is undertaken to support a single program—to administer and enforce the Statute by determining the respective rights of employees, agencies, and labor organizations in their relations with one another.

FLRA's authority is divided by law and by delegation among a three-member Authority and an Office of General Counsel, appointed by the President and subject to Senate confirmation; and the Federal Service Impasses Panel, which consists of seven part-time members appointed by the President.

FLRA does not initiate cases. Proceedings before FLRA originate from filings arising through the actions of Federal employees, Federal agencies, or Federal labor organizations. Nationwide, FLRA includes five Regional Offices and a Headquarters site in Washington, D.C.

Authority.—The Authority adjudicates appeals filed by either Federal agencies or Federal labor organizations on negotiability issues, exceptions to arbitration awards, appeals of representation decisions, eligibility of labor organizations for national consultation rights, and unfair labor practice complaints.

Office of the General Counsel.—The General Counsel investigates allegations of unfair labor practices and processes representation petitions. In addition, the General Counsel conducts elections concerning the exclusive recognition of labor organizations and certifies the results of elections.

Federal Service Impasses Panel.—The Panel resolves labor negotiation impasses between Federal agencies and labor organizations.

The Federal Maritime Commission (FMC or Commission) regulates oceanborne transportation in the foreign commerce of the United States. The Commission administers the Shipping Act of 1984 (1984 Act) as amended; section 19 of the Merchant Marine Act, 1920 (1920 Act); the Foreign Shipping Practices Act of 1988 (FSPA); Sections 2 and 3 of Public Law 89–777; and Section 834 of the Frank LoBiondo Coast Guard Authorization Act of 2018 (LoBiondo Act). The Commission monitors the activities of ocean common carriers, marine terminal operators (MTOs), ports, and ocean transportation intermediaries who operate in U.S. foreign commerce to ensure that they maintain just and reasonable practices.

Ocean Transportation Intermediaries (OTIs).—The Commission issues licenses to qualified OTIs operating in the United States and ensures that U.S. OTIs are bonded or maintain other evidence of financial responsibility.

Passenger Vessel Operators.—The Commission ensures that passenger vessel operators demonstrate adequate financial responsibility to indemnify passengers in the event of nonperformance of voyages or passenger injury or death.

Shipping Act Compliance.—The FMC maintains trade monitoring and enforcement programs designed to assist regulated entities in achieving compliance and to detect and appropriately remedy malpractices and violations of the prohibited acts set forth in section 10 of the 1984 Act; offers a dispute resolution program to resolve disputes impeding the transportation of cargo; reviews competitive activities of common carrier alliances and other agreements among common carriers and/or terminal operators; monitors the laws and practices of foreign governments which could have a discriminatory or otherwise adverse impact on shipping conditions in U.S. trades, and imposes remedial action, as appropriate, pursuant to section 19 of the 1920 Act or FSPA; enforces special regulatory requirements applicable to carriers owned or controlled by foreign governments; processes

and reviews agreements, service contracts, and service arrangements pursuant to the 1984 Act for compliance with statutory requirements; and reviews common carriers' privately published tariff systems for accessibility, accuracy, and reasonable terms.

The Federal Mediation and Conciliation Service (FMCS) provides assistance to parties in labor disputes in industries affecting commerce through conciliation and mediation.

Dispute Mediation.—FMCS assists labor and management in the mediation and prevention of disputes, other than those involving rail and air transportation, whenever such disputes threaten to cause a substantial interruption of interstate commerce or a major impairment to the national defense. FMCS also makes mediation and conciliation services available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. FMCS provides mandatory mediation and, where necessary, impartial boards of inquiry to assist in resolving labor disputes involving private nonprofit health care institutions. The workload shown below includes assignments in both the private and public sectors. These numbers include collective bargaining and grievance mediation.

DISPUTE MEDIATION WORKLOAD DATA

	2019 actual	2020 actual	2021 actual	2022 est.	2023 est.

Management and Administrative Support.—This activity provides for overall management and administration, policy planning, research and evaluation, and employee development.

Labor-Management Cooperation Project.—The Labor Management Cooperation Act of 1978 (29 U.S.C. 175a) authorizes FMCS to carry out this program of contracts and grants to support the establishment and operation of plant, area, and industry labor-management committees.

Alternative Dispute Resolution (ADR) Projects.—FMCS assists other Federal agencies by providing mediation and technical assistance in the area of ADR. The ADR cases reduce litigation costs and speed Federal processes. FMCS is funded for this work through interagency reimbursable agreements.

ENVIRONMENTAL REVIEW IMPROVEMENT FUND—Continued

114–94) and made a permanent agency by the Infrastructure Investment and Jobs Act (Public Law 117–58). The Permitting Council leads ongoing Government-wide efforts to improve the transparency, predictability, and outcomes of the Federal environmental review and authorization process for qualifying major infrastructure projects and works with Federal agency partners to implement and oversee adherence to the statutory requirements set forth in Title 41 of the FAST Act (FAST-41). FAST-41 is a voluntary program for large, complex infrastructure projects that maximizes the positive environmental and community outcomes of those projects through coordinated agency action in developing and implementing comprehensive permitting timetables, coordinated establishment of public and tribal outreach strategies, meaningful project sponsor engagement, identification and implementation of best practices, dispute resolution services, and posting and maintaining transparent, publicly accessible permitting timetables on the Federal Permitting Dashboard. Projects receive these benefits without modifying or undermining any underlying Federal statutes or regulations, or the status of any mandatory reviews.

The FTC's mission is to protect consumers and competition by preventing anticompetitive, deceptive, and unfair business practices through law enforcement, advocacy, and education without unduly burdening legitimate business activity. The FTC's mission is based on a vision of a vibrant economy characterized by vigorous competition and consumer access to accurate information.

Protect Consumers.—This goal is to prevent fraud, deception, and unfair business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address deceptive or unfair practices that harm consumers; 2) Provide the public with knowledge and tools to prevent harm to consumers; and 3) Collaborate with domestic and international partners to enhance consumer protection.

Promote Competition.—This goal is to prevent anticompetitive mergers and other anticompetitive business practices in the marketplace. The agency works to accomplish this goal through three objectives: 1) Identify and take actions to address anticompetitive mergers and practices that harm consumers; 2) Engage in effective research and stakeholder outreach to promote competition, advance its understanding, and create awareness of its benefits to consumers; and 3) Collaborate with domestic partners and international partners to preserve and promote competition.

The 2023 Budget includes a program level for the Commission of \$490 million, funded by \$202.5 million from the General Fund of the U.S. Treasury and offsetting collections from two sources: \$274.5 million from fees for Hart-Scott-Rodino Act premerger notification filings as authorized by 15 U.S.C. 18a and \$13 million from fees sufficient to implement and enforce the Telemarketing Sales Rule, promulgated under the Telemarketing and Consumer Fraud and Abuse Prevention Act (15 U.S.C. 6101 et seq., as amended).

The Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012, or the RESTORE Act, dedicates 80 percent of any civil and administrative penalties paid under the Clean Water Act by responsible parties in connection with the Deepwater Horizon oil spill to the Gulf Coast Restoration Trust Fund (the Trust Fund). These funds may be used for ecosystem restoration, economic recovery, and tourism promotion in the Gulf Coast region.

In addition to establishing the Trust Fund, the RESTORE Act established the Gulf Coast Ecosystem Restoration Council (the Council). The Council has oversight over the expenditure of sixty percent of the funds made available from the Trust Fund. Thirty percent will be administered for restoration and protection according to the Comprehensive Plan developed by the Council. The other thirty percent will be allocated to the States under the Spill Impact Component according to a formula established by the Council through a regulation, and spend according to individual State Expenditure Plans to contribute to the overall economic and ecological recovery of the Gulf. The Council includes the Governors of the States of Alabama, Florida, Louisiana, Mississippi and Texas and the Secretaries of the U.S. Departments of Agriculture, Army, Commerce, Homeland Security and the Interior, and the Administrator of the U.S. Environmental Protection Agency.

Public Law 93–642 established the Harry S Truman Scholarship Foundation to operate the scholarship program that is the permanent Federal memorial to the 33rd President of the United States. Appropriations in 1975 and 1976, totaling \$30 million, established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. For several years, the Foundation has also received appropriations that are deposited in the trust fund and available for obligation. The Budget proposes no new Federal funding for the Foundation in 2023.

The Foundation awards scholarships for qualified students who demonstrate outstanding potential for and interest in careers in public service at the local, State, or Federal level or in the non-profit sector. In its annual competition, the Foundation selects up to 60 new Truman Scholars. The maximum award is \$30,000 toward a graduate level degree program.

Scholarship awards.—This activity is comprised of scholarships awarded to cover eligible educational expenses.

Program administration.—This activity covers all costs of operating the program, including annual program announcement, interview and selection of Truman Scholars, calculation and disbursement of scholarship awards, monitoring of student progress, and special services and activities for scholars, including an orientation week for new scholars, a summer education and internship program, and workshops and conferences.

Title XV of Public Law 99–498 established the Institute of American Indian and Alaska Native Culture and Arts Development as an independent non-profit educational institution. The mission of the Institute is to serve as a multi-tribal center of higher education for Native Americans and is dedicated to the study, creative application, preservation and care of Indian arts and culture. The Institute is federally chartered and under the direction and control of a Board of Trustees appointed by the President of the United States.

Payment to the Institute.—This activity supports the operations of the Institute.

The Institute of Museum and Library Services (IMLS) is the primary source of Federal support for the nation's more than 116,000 libraries and 30,000 museums. Through strategic grantmaking, policy development, research and data collection, and strategic engagement, IMLS supports libraries and museums as community anchors that provide vital learning experiences and broad access to resources, in particular in under-served communities. IMLS provides leadership to help Americans build critical skills such as digital literacy; pursue education and training; access early learning opportunities; and participate in the workforce and civil society. Through its programs of support, including for State Library Administrative Agencies, Native American and Native Alaskan tribes, and Native Hawaiian organizations, IMLS helps ensure that all Americans, wherever located, have access to essential information and educational resources. The Institute's organization, mission, and functions are defined in the Museum and Library Services Act, as amended, Public Law 115-410; the National Museum of African American History and Culture Act, Public Law 108-184; and the National Museum of the American Latino Act, Public Law 116-260, the Consolidated Appropriations Act, 2021.

The Intelligence Community Management Account (ICMA) provides resources that directly support the Director of National Intelligence (DNI) in managing intelligence integration across the Intelligence Community (IC), such as the IC Inspector General, the IC Chief Information Officer, the IC Equal Employment Opportunity Office, the IC Diversity, Equity, and Inclusion Office, the Civil Liberties, Privacy, and Transparency Office and the IC Chief Financial Officer responsible for oversight of the National Intelligence Program annual budget cycle.

The ICMA funds the support functions of the Office of the Director of National Intelligence, including Legislative Affairs, Chief Operating Officer, Strategic Communications, and Military Affairs. ICMA also funds elements of the Policy and Capabilities Directorate which is focused on policy and strategy, acquisitions and procurement, facilities, human capital, domestic engagement, information sharing and data, and science and technology initiatives.

The ICMA also funds select IC elements such as the National Intelligence Council, the President's Daily Briefing Staff, and the National Intelligence University. These elements are the DNI's principal advisory sources in executing their IC-wide management responsibilities and executing their role as advisor to the President. The National Intelligence Council provides analytical support to the DNI and to senior policy makers. The President's Daily Briefing Staff supports the production of the daily intelligence briefing provided to the President and his senior staff. The National Intelligence University is a federal degree-granting institution with a far-reaching mission to educate and prepare intelligence officers to meet current and future challenges to the United States' national security.

The U.S. International Trade Commission (Commission) is an independent, nonpartisan Federal agency with specific responsibilities in investigating, adjudicating, and enforcing certain U.S. trade laws, providing relevant and timely analysis to the President and the Congress on trade issues, and maintaining the Harmonized Tariff Schedule of the United States (HTS).

For FY 2023, the Commission requests an appropriation of \$122.4 million to support its authorized operations. Pursuant to section 175 of the Trade Act of 1974, the budget estimates for the Commission are transmitted to Congress without revision by the President. The Administration's FY 2023 request for the Commission is \$106.8 million, reflected in the Appendix table and appropriations language.

Although the Commission has one program activity set forth in the Budget of the United States, the Commission's Strategic Plan for FY 2022-2026 sets two strategic goals that cover its programmatic responsibilities: first,

SALARIES AND EXPENSES—Continued

to conduct reliable and thorough investigations and, second, to develop sound and informed analyses and determinations. These goals set objectives for the Commission to adhere to as it carries out its three long-standing, statutory mandates. Those mandates are: (1) to investigate and make determinations in proceedings involving imports claimed to injure a domestic industry, violations of U.S. intellectual property rights, or other unfair methods of competition in connection with imported goods; (2) to provide independent analysis and information on tariffs, trade, and competitiveness to the Congress and the President; and (3) to maintain the Harmonized Tariff Schedule of the United States (HTS). The Commission also set a strategic goal to execute and advance organizational excellence. The Commission's objectives under this goal focus on five functional areas—human resources; budget, acquisitions, and finance; information technology; data; and organizational effectiveness.

The Strategic Plan identifies strategic objectives for each strategic goal, strategies to meet these objectives, and specific performance goals. The performance goals provide the basis by which the Commission can assess whether it is making progress toward its strategic objectives.

The Commission makes available its Strategic Plan, Agency Financial Report, Annual Performance Plan, Annual Performance Report, and Budget Justification at https://www.usitc.gov/budget_planning_and_organization.

Public Laws 99–500, 101–208, and 102–221 established the James Madison Memorial Fellowship Foundation to operate a fellowship program to encourage graduate study of the framing, principles, and history of the American Constitution. Appropriations of \$10 million in 1988 and 1989 established the Foundation's trust fund. The funds have been invested by the Secretary of the Treasury in U.S. Treasury securities, and the interest earned on these funds is available for carrying out the activities of the Foundation. Funds raised from private sources and the surcharges from commemorative coin sales are also placed in the trust fund.

The Foundation is authorized to award graduate fellowships of up to \$24,000 to high school teachers of American history, American government, and civics. College seniors and recent college graduates who want to become secondary school teachers of these subjects are also eligible.

Fellowship awards.—This activity is comprised of fellowship awards to cover educational expenses. It also supports the Foundation's annual Summer Institute on the U.S. Constitution, which all current fellows are required to attend. The Institute is an intensive educational experience that will ensure that all fellows know the history of the framing, ratification, and implementation of the U.S. Constitution and the Bill of Rights.

Program administration.—This activity covers the costs of planning, fund-raising, and the operation of the fellowship program.

The Japan-U.S. Friendship Commission was established as an independent Federal Government agency by the United States Congress in 1975 (P.L. 94-118) to strengthen the U.S.-Japan relationship through educational, cultural, and intellectual exchange. It administers a U.S. Government trust fund that originated in connection with the return to the Japanese government of certain U.S. facilities in Okinawa and for postwar U.S. assistance to Japan. The Commission is allowed to make expenditures from the fund in an amount, not to exceed five percent annually of the fund's original

principal, to pay Commission expenses and to make grants to support its mission. The Commission is a grant making agency that supports research, education, public affairs and exchange with Japan. Its mission is to support reciprocal people-to-people understanding, and to promote partnerships that advance common interests between Japan and United States.

The Legal Services Corporation (LSC) distributes appropriated funds to local non-profit organizations that provide free civil legal assistance to people living in poverty, according to locally-determined priorities. The Congress chartered the corporation as a private, non-profit entity outside of the Federal Government. Funding for LSC helps ensure that low-income Americans have an opportunity to obtain access to the courts, due process, and fair treatment. LSC operates under rules and requirements set by the LSC Act, 42 U.S.C. 2996–2996l, and by LSC's annual appropriations. The Administrative Provisions would make two changes. First, they would permit LSC recipients to operate with boards of directors that have as few as 33% attorneys without requiring appointment by bar associations and suspend the 60% attorney requirement in the LSC Act. This will greatly improve recipients' ability to have fiscal experts and community representatives on their governing bodies. Second, they would continue to apply the appropriations restrictions on recipients' use of these appropriated funds while permitting recipients to use funds from other sources as intended by those funders.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

None of the funds appropriated in this Act to the Legal Services Corporation shall be expended for any purpose prohibited or limited by, or contrary to any of the provisions of, sections 501, 502, 503, 504, 505, and 506 of Public Law 105–119, and all funds appropriated in this Act to the Legal Services Corporation shall be subject to the same terms and conditions set forth in such sections, except that all references in sections 502 and 503 to 1997 and 1998 shall be deemed to refer instead to 2022 and 2023, respectively.

Section 501 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1998 (Public Law 105–119) is amended by adding the following new subsection at the end:

"(d) MODIFIED GOVERNING BODY REQUIREMENT.—For purposes of this Act, section 1007(c) of the Legal Services Corporation Act (42 U.S.C. 2996f(c)) shall be applied by substituting "33 percent" for "60 percent"."

Section 502(2) of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended by striking subparagraph (B) in its entirety and replacing it with the following:

"(B) is governed by a board of directors or other governing body, 33 percent of which is comprised of attorneys who are members of the bar of a State, as defined in section 1002(8) of the Legal Services Corporation Act (42 U.S.C. 2996a(8)), in which the legal assistance is to be provided;"

Section 504 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1996 (Public Law 104–134) is amended in subsection (a) by striking everything before the first paragraph and inserting the following:

"(a) None of the funds appropriated in this Act to the Legal Services Corporation may be used to provide financial assistance to any person or entity (which may be referred to in this section as a recipient) for any expenditure or activity—"

The Merit Systems Protection Board (MSPB) is an independent agency in the Executive Branch of the Federal Government that serves as the guardian of Federal merit systems. The Board's mission is to protect Federal merit systems and the rights of individuals within those systems. The MSPB accomplishes its mission by: hearing and deciding employee appeals from agency actions; hearing and deciding cases brought by the Office of Special Counsel involving alleged abuses of the merit systems, and other cases arising under the Board's original jurisdiction; conducting studies of the civil service and other merit systems in the Executive Branch to determine whether they are free from prohibited personnel practices; and providing oversight of the significant actions and regulations of the Office of Personnel Management (OPM) to determine whether they are in accord with merit system principles. The MSPB's inception began in 1883, when the Congress passed the Pendleton Act establishing the Civil Service Commission and a merit-based employment system for the Federal Government. The Pendleton Act grew out of the 19th century reform movement to curtail the excesses of political patronage in Government. As the Commission's responsibilities multiplied, a growing consensus emerged that it could not properly and adequately perform managerial and adjudicatory functions simultaneously. Concern over the inherent conflict of interest in the Commission's role as both rule-maker and judge was a principal motivating factor behind the enactment by the Congress of the Civil Service Reform Act of 1978. The Act replaced the Civil Service Commission with three new independent agencies: OPM, the Federal Labor Relations Authority, and MSPB. MSPB assumed the employee appeals functions of the Commission and was given the new responsibilities to perform merit systems studies and to review the significant actions of OPM.

In 1998, Public Law 105–56 established the U.S. Institute for Environmental Conflict Resolution (U.S. Institute) as a part of the Udall Foundation. The Further Consolidated Appropriations Act, 2020 renamed the U.S. Institute as the John S. McCain III National Center for Environmental Conflict

Resolution (National Center) to honor the legacy of Senator John McCain who was instrumental in the establishment of the Udall Foundation and its programs. The National Center provides impartial collaboration, consensus-building, and conflict resolution services on a wide range of environmental, natural and cultural resources, Tribal, and public lands issues involving the Federal Government. The National Center's work enhances project efficiency, reduces costs, increases government capacity to serve citizens, increases the likelihood of avoiding litigation, and delivers better and more durable outcomes. The National Center's range of services include consultations, assessments, process design, convening, mediation, facilitation, training, stakeholder engagement, and other related collaboration and conflict resolution activities. The National Center specializes in providing assistance with national and regionally important environmental challenges; multiparty high-conflict cases where an impartial Federal convener is needed to broker participation in a collaborative process or conflict resolution effort; collaborative efforts involving Tribes and Native people, including government-to-government consultation between Tribes and Federal agencies; interagency and interdepartmental collaborations; issues involving multiple levels of government (Federal, State, local, Tribal) and the public; issues that require substantive expertise (e.g., National Environmental Policy Act, transportation infrastructure projects, endangered species, cultural resources); and projects that require funding from multiple agencies and/or private organizations.

This appropriation provides for the operation of the Federal Government's archives and records management activities, the preservation of permanently valuable historical records, and their access and use by the public.

Legislative Archives, Presidential Libraries, and Museum Services.—This activity provides for the Center for Legislative Archives and the Presidential Materials Division, which provide records management services to Congress and the White House; the Presidential Libraries of fifteen former Presidents; and nationwide education, outreach, and exhibits programs, including the National Archives Museum in Washington, DC.

Citizen Services.—This activity provides for public access to and engagement with permanently valuable Federal Government records by the researcher community and the general public at public research rooms, online at www.archives.gov, and through innovative tools and technology to support collaboration with the public.

Agency and Related Services.—This activity provides for the services NARA provides to other Federal agencies, including records management, appropriate declassification of classified national security information, oversight of the classification system and controlled, unclassified information, and improvements to the administration of the Freedom of Information

Act by the Office of Government Information Services; the electronic records management activities of the Electronic Records Archives system; and publication of the Federal Register, U.S. Statutes-at-Large, and Presidential Papers.

Facility Operations.—This activity provides for the operations and maintenance of NARA facilities.

Electronic Records Initiative.—This activity provides for expenses necessary to enhance the Federal Government's ability to electronically preserve, manage, and store Government records.

The National Capital Planning Commission (NCP) is the central planning agency for the Federal Government in the National Capital Region. Through its planning initiatives, policy-making, and review of development proposals, NCP helps guide Federal development while preserving the Capital City's unique resources. NCP will continue to work with the District of Columbia and Federal and regional partners to develop comprehensive policies and planning initiatives that support the Federal interest and contribute to the best urban design, infrastructure, resource, and land-use outcomes for the Region. In addition, NCP will continue to ensure that all Federal development in the Region meets the highest design standards and will review Federal plans for regional capital improvements.

The mission of the National Credit Union Administration (NCUA) is to protect the system of cooperative credit and its member-owners through effective chartering, supervision, regulation, and insurance. Credit unions are member-owned, cooperative associations organized for the purpose of promoting thrift and creating a source of credit for members. As of September 30, 2021, there were 3,122 federally-chartered credit unions with total assets of more than \$1 trillion.

NCUA, through its Operating Fund, conducts activities prescribed by the Federal Credit Union Act of 1934, which include: 1) chartering new Federal credit unions; 2) approving field of membership applications of Federal credit unions; 3) promulgating regulations and providing guidance; 4) performing regulatory compliance and safety and soundness examinations; 5) implementing and administering enforcement actions, such as prohibition orders, orders to cease and desist, orders of conservatorship and orders of liquidation; and 6) administering the National Credit Union Share Insurance Fund (SIF), which provides insurance to Federal credit unions (FCUs) and federally-insured state-chartered credit unions (FISCUs).

To better demonstrate how the NCUA's budget is used to achieve its strategic goals, the Operating Fund's obligations by program activity are presented in the same categories shown in the agency's 2022-2026 Strategic Plan. Amounts shown for "Safety and Soundness, and Consumer Protection" correspond to programs that contribute to the NCUA's goal to "Ensure a safe, sound and viable system of cooperative credit that protects consumers." Amounts shown for Improve Access to Equitable Financial Services" correspond to programs that contribute to the NCUA's goal to "Improve the

OPERATING FUND—Continued

financial well-being of individuals and communities through access to affordable and equitable financial products and services," which encompasses the NCUA's ACCESS initiative and other agency efforts to increase financial inclusion." Amounts shown for "Mission Support" correspond to programs that contribute to the NCUA's goal to "Maximize organizational performance to enable mission success."

NCUA funds its activities through operating fees levied on all FCUs, and through reimbursements from the SIF, which is funded by FCUs and FISCUS.

The primary purpose of the National Credit Union Share Insurance Fund (SIF) is to provide insurance for deposits of member accounts (also known as insured member shares) for nearly 129 million members in federally-chartered credit unions and state-chartered credit unions that qualify for insurance under the Federal Credit Union Act. As of September 30, 2021, over 4,990 state and Federal credit unions and 11 corporate credit unions were insured by the SIF, with insured member shares of \$1.6 trillion—an increase of \$200 billion, or 14.3 percent, year-on-year.

Following a cost allocation method that distributes NCUA costs between its insurance and regulatory functions, the SIF reimburses the NCUA Operating Fund for its share of administrative costs. In calendar year 2021, the SIF paid reimbursements of approximately \$208 million to the Operating Fund.

In 2017, the NCUA Board closed the Temporary Corporate Credit Union Stabilization Fund (TCCUSF) and distributed the TCCUSF's funds, property, and other assets to the SIF. Through the distribution, the SIF assumed the activities and obligations of the TCCUSF, including NCUA Guaranteed Notes (NGN). As of September 30, 2021, all of the NGNs have fully matured and the NCUA will have no further guarantee payments required under the program. The NCUA anticipates continuing the orderly liquidation of all remaining NGN assets in 2022.

The SIF's normal operating level, which is the Fund's equity level above which the Board would be expected to authorize distributions was lowered to 1.33 percent of insured shares in 2022.

For more information, please see the Credit and Insurance chapter in the *Analytical Perspectives* volume of the Budget.

The purpose of the Central Liquidity Facility (CLF), established under Title III of the Federal Credit Union (FCU) Act, is to improve the general financial stability of member credit unions by lending, subject to statutory limitations, to member credit unions experiencing unusual or unexpected liquidity shortfalls. The two primary sources of funds for the CLF are stock

subscriptions from member credit unions and access to borrowing from the Federal Financing Bank.

As of September 30, 2021, the borrowing authority of the CLF was \$36.1 billion.

The Community Development Revolving Loan Fund (CDRLF) was established by Congress in 1979 with a \$6 million appropriation to assist credit unions serving low-income communities to: 1) provide financial services to their communities; 2) stimulate economic activities in their communities, resulting in increased income and employment; and 3) operate more efficiently. CDRLF funds a revolving loan program and a technical assistance grant program.

For the revolving loan program, CDRLF had outstanding loans of \$5.0 million (16 loans outstanding to 16 credit unions) as of September 30, 2021. For the 2021 round of technical assistance grants, which are administered on a calendar-year basis, NCUA awarded \$1.5 million in technical assistance grants to help 105 low-income credit unions provide affordable financial services to their members and communities during the COVID-19 pandemic, and to establish professional mentoring relationships between staff at larger credit unions and those at smaller credit unions designated as minority depository institutions. The goals of the mentoring grants program include building staff capacity to develop new products and services that will benefit the community, strengthening staff skills to improve business and marketing plans, and promoting professional relationships.

The NEA, established by Congress in 1965, is an independent Federal agency that is the largest funder of the arts and arts education in communities nationwide and a catalyst of public and private support for the arts. The Agency partners closely with the nation's state and regional arts organizations, as well as with private entities, leveraging resources to provide more arts funding and arts programs across the country. Through its grant awards, strategic partnerships, and honorific awards, the NEA supports learning in and about the arts, celebrating the nation's rich and diverse cultural heritage,

and promoting equitable access to the arts in every community in the United States.

In 2023, the NEA will build on operations to further incorporate the principles of racial equity, civil rights, racial justice, and equal opportunity, as reflected in Executive Order 13985, by engaging proactively with underserved communities, including those in rural America, through grant programs and national initiatives. In 2023, support will continue for Creative Forces: NEA Military Healing Arts Network, a partnership with the Departments of Defense and Veterans Affairs and the state and local arts agencies that seeks to improve the health, wellness, and quality of life for military and veteran populations exposed to trauma, as well as their families and caregivers. In 2023, the NEA will continue to implement programming funded by the \$135 million provided in the American Rescue Plan.

The National Foundation on the Arts and the Humanities Act of 1965, as amended, also authorizes the NEA to receive money and other donated property; such gifts may be used, sold, or otherwise disposed of to support arts projects and activities. This presentation includes the Arts and Artifacts Indemnity Fund, which the NEA administers on behalf of the Federal Council on the Arts and the Humanities.

The National Endowment for the Humanities (NEH) serves and strengthens our republic by promoting excellence in the humanities and conveying the lessons of history to all Americans. In 2023, NEH will continue to support partnerships with state humanities councils; the strengthening of humanities teaching and learning in the nation's schools and institutions of higher education; basic research and original scholarship in the humanities; innovative use of digital information technology; efforts to preserve and increase access to books, U.S. newspapers, documents, and other reference materials; and museum exhibitions, documentary films, radio programming, and reading programs that reach millions of Americans. In 2023, NEH will bring fresh perspectives to its ongoing special initiative, "A More Perfect Union." The initiative is designed to demonstrate and enhance the critical role the humanities play in our nation, while also supporting projects that will help American commemorate the 250th anniversary of the Declaration of Independence in 2026. Support is provided through outright grants, matching grants, and a combination of the two. Eligible applicants include state humanities councils, educational institutions, libraries, archives, museums, historical organizations, and other scholarly and cultural institutions and organizations. Support is also provided to individuals for advanced research and scholarship in the humanities.

Gifts and Donations account: The National Foundation on the Arts and the Humanities Act of 1965, as amended, authorizes the Humanities Endowment to receive money and other donated property. Such gifts may be used, sold, or otherwise disposed of to support humanities projects and activities. Budget authority in this schedule reflects cash received each year by the Endowment.

The National Labor Relations Board resolves representation disputes in industry and also remedies and prevents specified unfair labor practices by employers or labor organizations. Case intake and additional program statistics appear in the table below.

	2021 actual	2022 est.	2023 est.
Case intake:			
Unfair labor practice cases	14,950	16,102	17,344
Representation cases	1,650	2,134	2,760
Administrative law judges:			
Hearings closed	135	140	160
Decisions issued	112	120	140
Board adjudication:			
Contested Board decisions issued	243	300	300
Regional director decisions	310	310	310
Board decisions requiring court enforcement	35	41	62

Casehandling (formerly Field investigations in 2015 and earlier).—Charges of unfair labor practices and petitions for elections to resolve representation disputes are investigated by regional office personnel. Approximately 90 percent of merit unfair labor practice cases are closed by settlement, dismissal, or withdrawal. The remainder are prepared for public hearing. About 85–90 percent of representation elections are held pursuant to agreement of the parties. The agency strives to maximize the voluntary settlement of all cases and to avoid litigation.

Administrative law judge hearing.—Administrative law judges conduct public hearings in unfair labor practice cases. Their findings and recommendations are set forth in their decisions.

Board adjudication.—In an unfair labor practice case, a judge's decision becomes a Board order if no exceptions are filed. About 30 percent of these decisions become automatic Board orders or are complied with voluntarily. The remainder, with exceptions filed, require a Board decision. In representation cases, regional directors initially decide the issues by Board delegation. The Board itself decides representation issues on referral from regional directors or by granting a request for review of a regional director's decision. The Board also rules on objection and challenge questions in election cases. Unlike other Federal agencies, Board orders are not self-enforcing in the absence of a timely petition to review. If the parties do not voluntarily comply with a Board order involving unfair labor practices, the Board must request that an appellate court enforce the decision.

Internal Review.—Office of the Inspector General.

Mission Support.—Previously spread across other program activities; includes administrative, personnel, and financial management functions conducted in the Headquarters office.

Mediator and alternative dispute resolution (ADR) services.—The National Mediation Board mediates disputes over wages, hours, and working conditions for some 700 rail and air carriers and approximately 650,000 employees in the two industries.

The Board also provides technical assistance to enable labor and industry representatives to explore informally the relevant economic and noneconomic problems that condition collective bargaining in the railroad and airline industries. The Board's ADR program provides collective bargaining training, facilitation, and grievance mediation services to the labor-management community.

Emergency disputes.—When the parties fail to resolve their disputes through mediation, they are urged to submit their differences to arbitration. If neither mediation nor voluntary arbitration is successful, the President,

when notified of disputes which substantially threaten to interrupt essential service, may appoint emergency boards to investigate and report on the dispute. Such reports usually serve as a basis for resolving the disputes.

	2021 actual	2022 est.	2023 est.
Board created:			
Emergency (sec. 160)	0	1	1
Emergency (sec. 159a)	0	1	1

Arbitration services.—Arbitration is governed by sections 3 and 7 of the Railway Labor Act. Railroad employee grievances resulting from disputes over the interpretation or application of collective bargaining contracts may be brought for settlement to the National Railroad Adjustment Board (NRAB). The divisions of the NRAB are composed of an equal number of carrier and union representatives compensated by the party or parties they represent. Public Law 89–456 provides for the adjustment of disputes involving grievances resulting from interpretation or application of bargaining agreements in the railroad industry and for disputes otherwise referable to the NRAB. In these disputes, the National Mediation Board compensates the neutral party selected to help resolve these grievances.

Administrative direction and support for the public law boards, special boards of adjustment, and the NRAB are provided by Federal employees who are compensated by the National Mediation Board.

NATIONAL RAILROAD PASSENGER CORPORATION
OFFICE OF INSPECTOR GENERAL

Federal Funds

SALARIES AND EXPENSES

For necessary expenses of the Office of Inspector General for the National Railroad Passenger Corporation to carry out the provisions of the Inspector General Act of 1978 (5 U.S.C. App. 3), \$27,720,000: Provided, That the Inspector General shall have all necessary authority, in carrying out the duties specified in such Act, to investigate allegations of fraud, including false statements to the Government under section 1001 of title 18, United States Code, by any person or entity that is subject to regulation by the National Railroad Passenger Corporation: Provided further, That the Inspector General may enter into contracts and other arrangements for audits, studies, analyses, and other services with public agencies and with private persons, subject to the applicable laws and regulations that govern the obtaining of such services within the National Railroad Passenger Corporation: Provided further, That the Inspector General may select, appoint, and employ such officers and employees as may be necessary for carrying out the functions, powers, and duties of the Office of Inspector General, subject to the applicable laws and regulations that govern such selections, appointments, and employment within the National Railroad Passenger Corporation: Provided further, That concurrent with the Pres-

ident's budget request for fiscal year 2024, the Inspector General shall submit to the House and Senate Committees on Appropriations a budget request for fiscal year 2024 in similar format and substance to budget requests submitted by executive agencies of the Federal Government.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The 2023 Budget proposes \$27.720 million for activities for the National Railroad Passenger Corporation (Amtrak) Office of the Inspector General.

In addition to the appropriation amount above, Section 802 of Title VIII of Division J of The Infrastructure Investment and Jobs Act (Pub. L. No. 117–58, Division J, Title VIII, Sec. 802, 135 Stat. 429, 1437 (2021)) states that, "Amounts made available to the Secretary of Transportation or to the Federal Railroad Administration in this title in this Act for the costs of award, administration, and project management oversight of financial assistance under the programs that are administered by the Federal Railroad Administration may be transferred to a Financial Assistance Oversight and Technical Assistance account, to remain available until expended, for the necessary expenses to support the award, administration, project management oversight, and technical assistance of programs administered by the Federal Railroad Administration under this Act: Provided, That one-quarter of one percent of the amounts transferred pursuant to the authority in this section in each of 2022 through 2026 shall be transferred to the Office of Inspector General of the Department of Transportation for oversight of funding provided to the Department of Transportation in this title in this Act: Provided further, That one-quarter of one percent of the amounts transferred pursuant to the authority in this section in each of 2022 through 2026 shall be transferred to the National Railroad Passenger Corporation Office of Inspector General for oversight of funding provided to the National Railroad Passenger Corporation in this title in this Act." Based on the amounts made available to Amtrak pursuant to this Act and, in accordance with the calculation under this provision, the amount available to

National Railroad Passenger Corporation Office of Inspector General under this provision equates to \$495,000 for 2023.

The National Security Commission on Artificial Intelligence (NSCAI), an independent Federal Agency, is composed of fifteen members appointed by select heads of key cabinet Departments along with key Congressional stakeholders. Established by section 1051 of P.L. 115–232, the NSCAI is responsible for assessing and recommending the competitiveness of the United States in artificial intelligence, machine learning, and other associated technologies, including matters related to national security, defense, public-private partnership and investments. The NSCAI also makes recommendations on the means and methods, international competitiveness, investments and risks, and the means and methods that the United States can leverage going forward to support this evolving technology.

The National Transportation Safety Board (NTSB) is an independent nonregulatory agency that promotes transportation safety by maintaining independence and objectivity; conducting objective, precise accident investigations and safety studies; performing fair and objective airman and mariner certification appeals; and advocating and promoting NTSB safety recommendations. The NTSB also provides assistance to victims of transportation accidents and their families.

In 2023, the Administration proposes a total funding level of \$129.3 million for NTSB Salaries and Expenses to allow the NTSB to fulfill its role in improving safety on the Nation's transportation system.

The National Transportation Safety Board is mandated by the Congress to investigate all catastrophic transportation accidents and, therefore, has no control over the frequency of costly accident investigations. The emergency fund provides a funding mechanism by which periodic accident investigation cost fluctuations can be met without delaying critical phases of the investigations. The current balance of \$2 million is sufficient to cover unanticipated costs associated with an increased number of accidents, and thus the Administration does not propose new funding in 2023.

The Neighborhood Reinvestment Corporation (NRC), doing business as "NeighborWorks America," was established by Federal charter in 1978 as a community/public/private partnership providing financial support (e.g. housing counseling, operating and capital grants), technical assistance, and training for affordable housing and community-based revitalization efforts nationwide. NRC receives both Federal and non-Federal funding to finance its program activities. The Budget requests \$170 million for NRC for its core operations, along with support and grants to its 250 network member organizations, and other non-profit organizations and local governments.

The Budget provides \$36 million for the Northern Border Regional Commission (NBRC). NBRC, authorized by P.L. 110–234, was established as a Federal-State partnership to provide a comprehensive approach to addressing persistent economic distress in the northern border region. Covering portions of Maine, New Hampshire, New York, and Vermont, the NBRC helps coordinate Federal efforts to develop the basic building blocks for economic development, such as transportation and basic public infrastructure, workforce development, and business development.

Nuclear Reactor Safety.—The Nuclear Regulatory Commission (NRC) Nuclear Reactor Safety Program encompasses licensing and overseeing civilian nuclear power reactors, research and test reactors, and other non-power production and utilization facilities (e.g., medical radioisotope facilities) in a manner that adequately protects public health and safety. This program also provides reasonable assurance of the security of facilities and protection against radiological sabotage. This program contributes to the NRC's safety and security strategic goals through the activities of the Operating Reactors and New Reactors Business Lines that regulate existing and new nuclear reactors to ensure they meet applicable requirements.

Nuclear Materials and Waste Safety.—The Nuclear Materials and Waste Safety Program encompasses the NRC's licensing and oversight of nuclear materials in a manner that adequately protects public health and safety. This program provides assurance of the physical security of the materials and waste and protection against radiological sabotage, theft, or diversion of nuclear materials. Through this program, the NRC regulates uranium processing and fuel facilities; research and pilot facilities; nuclear materials users (medical, industrial, research, and academic); spent fuel storage; spent fuel material transportation and packaging; decontamination and decommissioning of facilities; and low-level and high-level radioactive waste. The program contributes to the NRC's safety and security strategic goals through the activities of the Spent Fuel Storage and Transportation, Nuclear Materials Users, Decommissioning and Low-Level Waste, and Fuel Facilities Business Lines.

Corporate Support.—The NRC's Corporate Support Business Line involves centrally managed activities that are necessary for agency programs to accomplish the agency's mission. These activities include administrative services, financial management, human resource management, information technology (IT) and information management, outreach, policy support, training, and acquisitions.

GENERAL PROVISIONS—INDEPENDENT AGENCIES

SEC. 401. (a) The amounts made available by this title for the Nuclear Regulatory Commission may be reprogrammed for any program, project, or activity, and the Commission shall notify the Committees on Appropriations of both Houses of Congress at least 30 days prior to the use of any proposed reprogramming that would cause any program funding level to increase or decrease by more than \$500,000 or 10 percent, whichever is less, during the time period covered by this Act.

(b)

(1) The Nuclear Regulatory Commission may waive the notification requirement in subsection (a) if compliance with such requirement would pose a substantial risk to human health, the environment, welfare, or national security.

(2) The Nuclear Regulatory Commission shall notify the Committees on Appropriations of both Houses of Congress of any waiver under paragraph (1) as soon as practicable, but not later than 3 days after the date of the activity to which a requirement or restriction would otherwise have applied. Such notice shall include an explanation of the substantial risk under paragraph (1) that permitted such waiver and shall provide a detailed report to the Committees of such waiver and changes to funding levels to programs, projects, or activities.

(c) Except as provided in subsections (a), (b), and (d), the amounts made available by this title for "Nuclear Regulatory Commission—Salaries and Expenses" shall be expended as directed in the joint explanatory statement accompanying this Act.

(d) None of the funds provided for the Nuclear Regulatory Commission shall be available for obligation or expenditure through a reprogramming of funds that increases funds or personnel for any program, project, or activity for which funds are denied or restricted by this Act.

(e) The Commission shall provide a monthly report to the Committees on Appropriations of both Houses of Congress, which includes the following for each program, project, or activity, including any prior year appropriations—

- (1) total budget authority;
- (2) total unobligated balances; and
- (3) total unliquidated obligations.

As mandated by the Nuclear Waste Policy Amendments Act of 1987, the Nuclear Waste Technical Review Board (Board) evaluates the technical and scientific validity of activities undertaken by the Department of Energy (DOE) related to the management and disposition of spent nuclear fuel and high-level radioactive waste. The Board's purpose is to provide independent expert advice to DOE and Congress on technical issues and to review DOE's efforts to implement the relevant sections of the Nuclear Waste Policy Act. The Board must report its findings, conclusions, and recommendations to Congress and the Secretary of Energy.

The U.S. Office of Government Ethics (OGE), established by the Ethics in Government Act of 1978, provides overall leadership and oversight of the Executive Branch ethics program designed to prevent and resolve conflicts of interest. OGE's mission is part of the very foundation of public service. The first principle in the Fourteen Principles of Ethical Conduct for Government Officers and Employees provides that, "[p]ublic service is a public trust, requiring employees to place loyalty to the Constitution,

the laws and ethical principles above private gain." OGE undertakes this important prevention mission as part of a framework comprising Executive Branch agencies and entities whose work focuses on institutional integrity. Within this framework, the ethics program works to ensure that public servants carry out the governmental responsibilities entrusted to them with impartiality, and that they serve as good stewards of public resources.

To carry out its vital leadership and oversight responsibilities for the Executive Branch ethics program, OGE promulgates, maintains, and advises on enforceable standards of ethical conduct for more than 2.7 million employees in over 130 Executive Branch agencies, including the White House; offers education and training to the more than 5,000 ethics officials Executive Branch-wide; oversees a financial disclosure system that reaches more than 26,000 public and more than 380,000 confidential financial disclosure report filers; operates and maintains *Integrity*, a public financial disclosure management application required by the Representative Louise McIntosh Slaughter Stop Trading on Congressional Knowledge (STOCK) Act; monitors Executive Branch agency ethics programs and senior leaders' compliance with applicable ethics laws and regulations; prepares for presidential transitions and provides assistance to the President and Senate in the presidential appointments process; conducts outreach to the general public, the private sector, and non-governmental organizations; and makes ethics documents publicly available.

The Office of Special Counsel (OSC): 1) investigates Federal employee and applicant allegations of prohibited personnel practices (including reprisal for whistleblowing), and other activities prohibited by civil service law and, when appropriate, prosecutes before the Merit Systems Protection Board; 2) provides a safe channel for whistleblowing by Federal employees and applicants; 3) investigates and enforces the Uniformed Services Employment and Reemployment Rights Act (USERRA); and, 4) advises on and enforces civil provisions of the Hatch Act. OSC may transmit whistleblower allegations to the agency head concerned and require an agency investigation. OSC submits the agency's investigative report to the President and the Congress when appropriate.

OSC received 3,518 new cases in 2021. While this is approximately 37 percent below the average caseload level received from 2016 to 2020, OSC attributes this decrease largely to the COVID-19 pandemic, and the resulting operational impact facing many federal agencies since March 2020. OSC expects a return to pre-pandemic caseload levels in future fiscal years, barring additional, unforeseen circumstances. Despite receiving fewer cases in 2021, OSC again achieved a significant amount of favorable outcomes across multiple programmatic units.

Specifically, OSC achieved 393 favorable actions on prohibited personnel practice cases, the second highest in agency history, and approximately 20 percent above the prior five-year average. OSC also resolved 375 Hatch Act cases, which is approximately 64 percent above the prior five-year average. In addition, OSC issued 62 warning letters and successfully obtained seven disciplinary actions against agency officials who committed Hatch Act violations. OSC also assisted 17 service members in asserting their employment and reemployment rights.

Of the 3,518 cases OSC received in 2021, 906 were new disclosures. While this number is more than 250 cases fewer than the number of disclosures received in 2020, primarily because of the pandemic, the five-year

average of new disclosures is still over 1,350. Further, OSC expects case-loads to increase when government agency operations return to normal, once the pandemic subsides likely during 2022. OSC processed and closed 929 disclosures, and referred 65 disclosures of waste, fraud, and abuse to agency heads for investigation. During the last several years, OSC has received numerous whistleblower disclosures from employees at the Department of Veterans Affairs (VA). OSC's work with VA whistleblowers has been featured in the media, and has helped promote accountability and improvements within VA. OSC continues to receive a disproportionately large number of cases from VA employees and, to address this, has established a streamlined system of managing those cases which includes a monthly status call with the agency regarding pending investigations. Further, OSC continued to use enhanced methods to more efficiently resolve cases through its Alternative Dispute Resolution (ADR) program by completing 28 case mediations in 2021.

OSC conducts outreach and education activities on its programmatic areas to inform and train agencies to prevent prohibited personnel practices, whistleblower reprisals, and Hatch Act and USERRA violations, and encourage reporting of claims of waste, fraud, and abuse. In 2021, OSC conducted 178 outreach activities throughout the Federal Government.

Case Type:	Cases Received 2021	Cases Resolved 2021
Prohibited personnel practice complaints	2,304	2,390
Hatch Act complaints	289	375
Whistleblower Disclosures	906	929
USERRA cases	19	17
Totals	3,518	3,711

OSC projects intakes for whistleblower disclosures, Hatch Act, and prohibited personnel practice cases to return to recent trends, and stabilize at around 6,000 total new cases received in future, nonpandemic years, potentially beginning at some point in 2022. OSC's caseload will likely remain high in light of the increased media exposure whistleblowers in general are receiving.

Overall, the requested funding for 2023 will enable OSC to meet current demands for OSC's services, protect whistleblowers in the VA and other agencies, protect the employment rights of returning service members, and protect the Federal merit system from prohibited personnel and partisan political practices.

The Postal Reorganization Act of 1970, Public Law 91–375, converted the Post Office Department into the U.S. Postal Service, an independent establishment within the executive branch. This legislation reorganized the Postal Service to function in a businesslike manner, though Section 2401 authorized annual appropriations to reimburse the Postal Service for public service costs incurred and for revenue forgone when providing services for free or at reduced rates to groups such as the blind, non-profit organizations, local newspapers, military and overseas voters, and publishers of educational material. The Postal Service commenced operations July 1, 1971. The Agency is charged with providing patrons with reliable mail service at reasonable rates and fees.

The Postal Service is governed by an 11-member Board of Governors, including nine Governors appointed by the President, a Postmaster General who is selected by the Governors, and a Deputy Postmaster General who is selected by the Governors and the Postmaster General.

The activities of the Postal Service are financed from: 1) mail and services revenue; 2) reimbursements from Federal and non-Federal sources; 3) proceeds from borrowing; 4) interest from U.S. securities and other investments; and 5) appropriations by the Congress. All receipts and deposits are made to the Fund and are available without fiscal year limitation for payment of all expenses incurred, retirement of obligations, investment in capital assets, and investment in obligations and securities. Since 1971, there have been several reforms. Notably, the Omnibus Budget Reconciliation Act of 1989 moved the Postal Service "off-budget" so that, beginning in 1990, the receipts and disbursements of the Fund are not considered as part of the congressional and executive budget process. Annual appropriations to the Postal Service are recorded on-budget in the Payment to the Postal Service Fund.

The Revenue Forgone Reform Act of 1993 (Public Law 103–123) amended Section 2401 of the Postal Reorganization Act and replaced the indefinite authorization of appropriations to support reduced rates for non-profits with an authorization of annual appropriations of \$29 million each year from 1994 through 2035. This amount was estimated to compensate for insufficient appropriations for fiscal years 1991 through 1993 and for revenue losses from mandated reductions to postage rates to non-profits through 1998. From 1994 to 2016, the Postal Service received \$562 million in total appropriations under Public Law 103–123. No additional appropriations for this purpose have been enacted since that time. The Postal Service continues to receive annual appropriations to reimburse it for free postage

POSTAL SERVICE FUND—Continued

for the blind and overseas absentee balloting materials pursuant to Public Law 91–375.

The 2006 Postal Accountability and Enhancement Act (P.L. 109–435) made a number of changes affecting the operations and oversight of the Postal Service. The Act provided for separate accounting and reporting for market-dominant products such as First-Class Mail and competitive products such as package delivery. The Act also amended the process for determining rate increases for market-dominant products, in part by imposing a ten-year limit on rate increases linked to the Consumer Price Index for All Urban Consumers (CPI-U). In 2017, the Postal Regulatory Commission announced proposed changes to the rate structure including increases above the cap of the CPI-U. In November 2020, the Postal Regulatory Commission adopted final rules to give the Postal Service greater flexibility in establishing prices for Market Dominant mail products, and in August 2021, the first postage rates using this new market-dominant price flexibility took effect.

P.L. 109–435 also created the Postal Service Retiree Health Benefits Fund to place the Postal Service on a path that fully funds its substantial retiree (annuitant) health benefits liabilities. This Fund was to receive from the Postal Service: 1) the pension savings provided to the Postal Service by the Postal Civil Service Retirement System Funding Reform Act of 2003 (P.L. 108–18) that were held in escrow during 2006; 2) a 10-year stream of payments defined within P.L. 109–435 to begin the liquidation of the Postal Service's unfunded liability for post-retirement health benefits; 3) beginning in 2017, payments for the actuarial cost of Postal Service contributions for the post-retirement health benefits for its current employees; 4) beginning in 2017, a 40-year amortization payment to fund any remaining unfunded liabilities associated with post-retirement health benefits of Postal Service employees; and 5) the surplus resources of the Civil Service Retirement and Disability Fund that are not needed to finance future retirement benefits under the Civil Service Retirement System (CSRS) to current or former employees of the Postal Service that are attributable to civilian employment with the Postal Service. Since passage in 2006, the Postal Service has contributed \$38 billion to the Fund but has failed to make required payments each year since FY 2012, thus steadily increasing the size of the unfunded liability.

Beginning in 2017, P.L. 109–435 also required the Postal Service to begin a 27-year amortization to retire its unfunded liability under the CSRS. However, the Postal Service has failed to make payments each year since that time. In total, as of September 30, 2021 the Postal Service reported \$72 billion in past due obligations to the Office of Personnel Management (OPM) related to retiree health benefits, CSRS, and the Federal Employees Retirement System (FERS).

As amended by P.L. 109–435, the Postal Service has statutory borrowing from the Federal Financing Bank (FFB) authority capped at \$15 billion with the annual increase in outstanding debt limited to \$3 billion. As of September 30, 2021, the total debt outstanding to the FFB was \$11.0 billion, including \$3 billion in short-term debt that was repaid on April 2, 2021. Section 6001 of the Coronavirus Aid, Relief and Economic Security (CARES) Act of 2020, P.L. 116–136, provided an additional \$10 billion in borrowing authority to be used exclusively for COVID-19 related operating expenses. Pursuant to Section 801 of the Consolidated Appropriations Act of 2021, P.L. 116–260, no repayment is required for amounts borrowed under the CARES Act.

Given the Postal Service's history of using defaults to continue operations despite losses, the Budget reflects defaults on required pension and retiree health amortization and normal cost payments to prevent the Postal Service from running unsustainable deficits. The Administration appreciates the bipartisan support in the Congress for the Postal Service Reform Act of 2022 (H.R. 3076), which will improve the Postal Services long-run financial outlook, without sacrificing quality, affordable health coverage for Postal employees and retirees. This legislation will allow the Postal Service and its dedicated employees to continue to provide an essential public service

for the delivery of mail and packages to all Americans. The Administration looks forward to working with the Congress to ensure that the goals of this legislation are met in an efficient and equitable manner and to advance additional reforms and financial support to maintain and expand the public services that the Postal Service provides to the American people. The Budget proposes legislation to strengthen services offered by the United States Postal Service to support secure, free and fair elections. This includes making official ballot materials free to mail and reducing the cost of other election-related mail for jurisdictions and voters, and enhancing the Postal Service's ability to securely and expeditiously deliver and receive mail in underserved areas. This proposal expands on the essential public services that the Postal Service provides to the American people and will also help to relieve budget strain on local election offices across the country. The Budget estimates associated costs of \$5 billion over the 2023–2032 period.

The U.S. Postal Service Office of Inspector General (USPS OIG) is an independent organization charged with reporting to Congress on the overall efficiency, effectiveness, and economy of Postal Service programs and operations. The USPS OIG meets this responsibility by conducting audits, investigations, and other reviews. The USPS OIG focuses on the prevention, identification, and elimination of: 1) waste, fraud, and abuse; 2) violations of laws, rules, and regulations; and 3) inefficiencies in Postal Service programs and operations.

The Budget proposes \$271,000,000 for the 2022 USPS OIG's operations. Pursuant to P.L. 109–435, the 2022 appropriation request of the USPS OIG is \$290,312,000.

Section 603(b)(1) of P.L. 109–435 (Postal Accountability and Enhancement Act) authorizes appropriations for the USPS OIG out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of USPS OIG spending from off-budget mandatory to off-budget discretionary.

The Postal Regulatory Commission is an independent agency that oversees the U.S. Postal Service to ensure transparency and accountability of the Postal Service to Congress, stakeholders, and the public in order to foster a vital and efficient universal mail system. The Commission ensures the Postal Service complies with the applicable laws by conducting expert review and analysis of postal rates, product offerings, service quality, nationwide service changes, post office closing appeals, and complaints. The Commission also conducts data analysis in order to support accurate and objective regulatory decision-making, and provides transparency of postal data for policymakers and stakeholders.

Pursuant to P.L. 109–435, the 2023 appropriation request of the Commission is \$20,300,000.00. Section 603(a) of PAEA authorizes appropriations for the Commission out of the off-budget Postal Service Fund beginning in 2009. The authorization resulted in the reclassification of the Commission's spending from off-budget mandatory to off-budget discretionary.

The Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA) created the Privacy and Civil Liberties Oversight Board (PCLOB). The IRTPA originally placed the Board within the Executive Office of the President. The Implementing Recommendations of the 9/11 Commission Act of 2007 reconstituted the Board as an independent oversight agency within the Executive Branch. All five members of the Board are nominated by the President and confirmed by the Senate for staggered six-year terms. The Board has two main responsibilities: 1) to analyze and review actions

the executive branch takes to protect the United States from terrorism, ensuring that the need for such actions is balanced with the need to protect privacy and civil liberties; and 2) to ensure that liberty concerns are appropriately considered in the development and implementation of laws, regulations, and policies related to efforts to protect the Nation against terrorism. The Board is required to report semi-annually on its operations to the U.S. Congress, as well as inform the public of its activities, as appropriate.

The Federal Assets Sale and Transfer Act of 2016 (Public Law 114–287), enacted in December 2016, authorizes the Public Buildings Reform Board. The role of the Board is to identify opportunities for the Government to significantly reduce its inventory of civilian real property and reduce cost to the Government, subject to approval by the Office of Management and Budget. By law, the Board sunsets in 2025.

The Public Defender Service for the District of Columbia (PDS) is a federally funded, independent organization governed by an eleven-member Board of Trustees. PDS was created in 1970 by a Federal statute (P.L. 91–358; see also D.C. Code Sec. 2–1601, et seq.) to fulfill the constitutional mandate (under *Gideon v. Wainwright*) to provide criminal defense counsel for individuals who cannot afford to hire a lawyer. PDS's mission is to provide and promote quality legal representation for indigent adults and children facing a loss of liberty in the District of Columbia justice system and thereby protect society's interest in the fair administration of justice. PDS specializes in representation in the most complex and resource-intensive criminal and delinquency cases. PDS also represents individuals facing involuntary civil commitment in the District's mental health system and individuals facing parole revocation for D.C. Code offenses.

The Puerto Rico Oversight, Management, and Economic Stability Act (P.L. 114-187) created an oversight board that is not a department, agency, establishment, or instrumentality of the Federal Government but is an entity within the territorial government, which is not subject to the supervision or control of any Federal agency. See 42 U.S.C. 2121(c). Although the Board's financing is derived entirely from the territorial government, the flow of funds from the territory to the Board is mandated by Federal law. Because Federal law prescribes the flow of funds to the Board, the Budget reflects the allocation of resources by the territorial government to the new territorial entity with a net zero Federal deficit impact, consistent with long-standing budgetary concepts. Because the Board itself is not a Federal entity, its operations will not be included in the Federal Government's Budget. Data are presented here on a Puerto Rico fiscal year basis (July 1 to June 30).

LIMITATION ON ADMINISTRATION

For necessary expenses for the Railroad Retirement Board ("Board") for administration of the Railroad Retirement Act and the Railroad Unemployment Insurance Act, \$131,666,000, to be derived in such amounts as determined by the Board from the railroad retirement accounts and from moneys credited to the railroad unemployment insurance administration fund: Provided, That notwithstanding section 7(b)(9) of the Railroad Retirement Act this limitation may be used to hire attorneys only through the excepted service: Provided further, That the previous proviso shall not change the status under Federal employment laws of any attorney hired by the Railroad Retirement Board prior to January 1, 2013: Provided further, That notwithstanding section 7(b)(9) of the Railroad Retirement Act, this limitation may be used to hire students attending qualifying educational institutions or individuals who have recently completed qualifying educational programs using current excepted hiring authorities established by the Office of Personnel Management.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117-43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

LIMITATION ON ADMINISTRATION—Continued

As shown below, the Board projects this workload will continue to decline as the number of beneficiaries declines.

	1980 act.	1990 act.	2010 act.	2020 act.	2021 act.	2022 est.
Total beneficiaries	1,009,500	894,196	549,154	502,553	491,611	484,500

In recognition of the continuing decline in virtually all its major workloads, the Board will explore and adopt new approaches to improve service to beneficiaries.

The President's Budget includes three (3) legislative proposals: the first legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board (RRB) to utilize various hiring authorities available to other Federal agencies. Section 7(b)(9) of the Railroad Retirement Act contains language requiring that all employees of the RRB, except for one assistant for each Board Member, must be hired under the competitive civil service. Elimination of this requirement would enable the RRB to use various hiring authorities offered by the Office of Personnel Management; the second legislative proposal is to amend the Railroad Retirement Act to allow the Railroad Retirement Board to utilize student and recent graduate hiring authority available to other Federal agencies; lastly the third legislative proposal is to amend the Railroad Retirement Act and the Railroad Unemployment Insurance Act to include a felony charge for individuals committing fraud against the Agency. Under this proposal, both the Railroad Retirement Act and the Railroad Unemployment Insurance Act would be amended to include a felony charge similar to violations under 42 U.S.C. 408, 18 U.S.C. 1001, or 18 U.S.C. 287.

All railroad retirees receive the equivalent of a Social Security benefit, and they may also receive other add-ons including rail industry pension payments, windfall payments, and supplemental annuities. Social Security benefits for former railroad employees are funded by the Social Security trust funds, and rail industry pension payments are the responsibility of the rail sector.

Under current law, a financial interchange occurs once each year between the Social Security trust funds and the Social Security Equivalent Benefit (SSEB) account. SSEB receives monthly advances from the general fund equal to an estimate of the transfer SSEB would have received for the previous month if the financial interchange transfers were on a monthly basis. Advances from the previous year are repaid annually to the general fund immediately after the financial interchange is received. In 2021, \$5,035 million was advanced and \$4,852 million was repaid.

SECURITIES AND EXCHANGE COMMISSION

Federal Funds

SALARIES AND EXPENSES

For necessary expenses for the Securities and Exchange Commission, including services as authorized by 5 U.S.C. 3109, the rental of space (to include multiple year leases) in the District of Columbia and elsewhere, and not to exceed \$3,500 for official reception and representation expenses, \$2,149,000,000, to remain available until expended; of which not less than \$18,979,000 shall be for the Office

of Inspector General; of which not to exceed \$275,000 shall be available for a permanent secretariat for the International Organization of Securities Commissions; and of which not to exceed \$100,000 shall be available for expenses for consultations and meetings hosted by the Commission with foreign governmental and other regulatory officials, members of their delegations and staffs to exchange views concerning securities matters, such expenses to include necessary logistic and administrative expenses and the expenses of Commission staff and foreign invitees in attendance including: (1) incidental expenses such as meals; (2) travel and transportation; and (3) related lodging or subsistence.

In addition to the foregoing appropriation, for move, replication, and related costs associated with a replacement lease for the Commission's District of Columbia headquarters facilities, not to exceed \$57,405,000, to remain available until expended.

For purposes of calculating the fee rate under section 31(j) of the Securities Exchange Act of 1934 (15 U.S.C. 78ee(j)) for fiscal year 2023, all amounts appropriated under this heading shall be deemed to be the regular appropriation to the Commission for fiscal year 2023: Provided, That fees and charges authorized by section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) shall be credited to this account as offsetting collections: Provided further, That not to exceed \$2,149,000,000 of such offsetting collections shall be available until expended for necessary expenses of this account and not to exceed \$57,405,000 of such offsetting collections shall be available until expended for move, replication, and related costs under this heading associated with a replacement lease for the Commission's District of Columbia headquarters facilities: Provided further, That the total amount appropriated under this heading from the general fund for fiscal year 2023 shall be reduced as such offsetting fees are received so as to result in a final total fiscal year 2023 appropriation from the general fund estimated at not more than \$0: Provided further, That if any amount of the appropriation for move, replication, and related costs associated with a replacement lease for the Commission's District of Columbia headquarters facilities is subsequently de-obligated by the Commission, such amount that was derived from the general fund shall be returned to the general fund, and such amounts that were derived from fees or assessments collected for such purpose shall be paid to each national securities exchange and national securities association, respectively, in proportion to any fees or assessments paid by such national securities exchange or national securities association under section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) in fiscal year 2023.

Note.—A full-year 2022 appropriation for this account was not enacted at the time the Budget was prepared; therefore, the Budget assumes this account is operating under the Continuing Appropriations Act, 2022 (Division A of Public Law 117–43, as amended). The amounts included for 2022 reflect the annualized level provided by the continuing resolution.

The mission of the Securities and Exchange Commission (SEC) is to: protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation. The SEC's six major programs include the following:

Enforcement.—The Division of Enforcement investigates and prosecutes civil violations of the Federal securities laws and works closely with the Department of Justice and other law enforcement partners to coordinate and assist in criminal prosecutions.

Examinations.—The Division of Examinations conducts the SEC's examination program to detect violations of the Federal securities laws and evaluate internal compliance controls at securities firms registered with the SEC.

Corporation Finance.—The Division of Corporation Finance selectively reviews company disclosures to ensure that investors have the information necessary to make informed investment decisions and to help deter fraud and misrepresentation in securities transactions.

Trading and Markets.—The Division of Trading and Markets' (TM) mission is to establish and maintain standards for fair, orderly, and efficient markets while fostering investor protection and confidence in the markets. TM oversees the activities of industry self-regulatory organizations, such as the Financial Industry Regulatory Authority, and directly regulates market participants where Commission rulemaking is more effective than self-regulation.

Investment Management.—The Division of Investment Management works to protect investors, promote informed investment decision making, and facilitate appropriate innovation in investment products and services through regulation of the asset management industry.

Economic and Risk Analysis.—The Division of Economic and Risk Analysis integrates financial economics and rigorous data analytics into the core mission of the SEC.

Additional program offices directly support the major programs: the Office of International Affairs, the Office of the Chief Accountant, the Office of

The SEC is funded through offsetting fees and assessments collected pursuant to section 31 of the Securities Exchange Act of 1934 (15 U.S.C. 78ee) at a rate intended to fully offset the SEC's appropriation.

In addition to amounts requested for operations, the Budget proposes an amount for move, replication, and related costs associated with a replacement lease for the Commission's District of Columbia headquarters facilities. This amount would not be used for the operations of the SEC, and the proposed appropriations language provides a mechanism whereby any unused portion of these funds could be refunded to fee payers (or returned to the general fund of the Treasury) as rapidly as practicable.

Section 991 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act) amended section 4 of the Securities Exchange Act of 1934 (15 U.S.C. 78d) to establish the Securities and Exchange Commission Reserve Fund. The Reserve Fund is a separate fund in the Treasury from which the Commission may obligate amounts determined necessary to carry out Commission functions. The Reserve Fund provisions took effect on October 1, 2011.

The Reserve Fund is funded by deposits from registration fees collected by the Commission under section 6(b) of the Securities Act of 1933 (15 U.S.C. 77f(b)) and section 24(f) of the Investment Company Act of 1940 (15 U.S.C. 80a-24(f)). In any one fiscal year, the amount deposited in the Reserve Fund may not exceed \$50 million and obligations from the Reserve Fund may not exceed \$100 million. The balance in the Reserve Fund may not exceed \$100 million. Amounts in the Reserve Fund are available until expended. (The remainder of registration fee collections for each fiscal year are deposited in the general fund of the Treasury and are not available for obligation by the Commission.)

Amounts collected and deposited in the Reserve Fund are not subject to appropriation or apportionment. However, the Commission is required to

notify the Congress of the amount and purpose of any obligations made utilizing amounts from the Reserve Fund within 10 days.

As part of the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111-203) (the Dodd-Frank Act), the Congress substantially expanded the Securities and Exchange Commission's (SEC or Commission) authority to pay whistleblower awards and enhanced the anti-retaliation protections available to whistleblowers. The intent is to incentivize submission of high-quality tips by motivating persons with knowledge of possible securities laws violations to assist the Federal Government in identifying and prosecuting individuals who violate the Federal securities laws.

To comply with direction provided in the Dodd-Frank Act, the SEC's Division of Enforcement established an Office of the Whistleblower to administer and enforce the whistleblower award program. The Investor Protection Fund (the Fund), established by the Dodd-Frank Act, provides resources for payments to whistleblowers and for the SEC's Office of the Inspector General Employee Suggestion Program. Deposits into the Fund are comprised of a portion of monetary sanctions collected by the SEC in judicial or administrative actions brought by the Commission under the Federal securities laws that are not added to a disgorgement fund or other fund under section 308 of the Sarbanes-Oxley Act of 2002 (P.L. 107-204), as well as amounts in such funds that will not be distributed to injured investors. No sanction collected by the Commission can be deposited into the Fund if the balance at the time the sanction is collected exceeds \$300 million. No funds have been taken or withheld from harmed investors to pay whistleblower awards. The Commission is required to submit an annual report on the whistleblower award program to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

The figures reported for 2022 and 2023 are based on assumptions regarding several variables inherent to litigation and to the Commission's whistleblower award process. Given the potential for significant variation in the payouts and their timing, it is possible that actual payouts will be either significantly higher or significantly lower than these estimates.

The Smithsonian Institution conducts research in natural and physical sciences, history and the history of cultures, technology and the arts. The Institution acquires and preserves more than 155 million items of scientific, cultural, and historic importance for reference and study purposes. These resources may be accessed by millions of visitors and researchers worldwide either in person, or increasingly online. Smithsonian's public exhibitions delve into subjects from aeronautics to zoology.

The Institution operates 19 museums and galleries, a zoological park and animal conservation and research center, research facilities, and supporting facilities. The Institution is in early planning stages for two additional museums established by Congress in December 2020.

Included in the presentation of the Salaries and Expenses account are data for the Canal Zone biological area fund. Donations, subscriptions, and fees are appropriated and used to defray part of the expenses of maintaining and operating the Canal Zone biological area (60 Stat. 1101; 20 U.S.C. 79, 79a).

This account provides funding for major new construction projects to support the Smithsonian's existing and future programs in research, collections management, public exhibitions, and education. This account also includes major repairs, revitalization, code compliance changes, minor construction, alterations and modifications, and building system renewals of Smithsonian museum buildings and facilities for storage and conservation of collections, research, and support. The Facilities Capital account also includes planning and design funding related to these activities and to plan new museums authorized by Congress. The President's Budget for Fiscal Year 2023 includes funds for critical infrastructure improvements at the National Museum of Natural History, the National Zoological Park, and the National Museum of American History. In addition, funds are included for improvements to the Smithsonian Tropical Research Institute and Astrophysical Observatory and other important revitalization projects throughout the Institution. Current long-term projects in this account include

The State Justice Institute (SJI) was established by Federal law (42 U.S.C. 10701 et seq.) as a non-profit corporation to award grants and undertake other activities to improve the quality of justice in State courts and foster innovative, efficient solutions to common issues faced by all courts. SJI has the authority to assist all State courts—criminal, civil, juvenile, family, and appellate—and the mandate to share the success of one State's innovations with every State court system and the Federal courts. The FY 2023 budget includes additional resources to address the unique challenges of the opioid epidemic, behavioral health issues, and technology in state courts.

The Surface Transportation Board (STB or Board) is primarily charged with the economic oversight of the nation's freight rail system. The economics of freight rail regulation impact the national transportation network and are important to our nation's economy. For this reason, Congress gave the STB sole jurisdiction over railroad rates, practices, and service. Congress also gave the STB sole jurisdiction over rail mergers and consolidations, abandonments of existing rail lines, and new rail line constructions, exempting STB-approved transactions from federal antitrust laws and state and municipal laws.^[1] The bipartisan Board was established in 1996 as the successor agency to the Interstate Commerce Commission.^[2] The Board was administratively aligned with the Department of Transportation until the enactment of the Surface Transportation Board Reauthorization Act of 2015.^[3]

While a majority of the Board's work involves freight railroads, the STB's involvement with passenger rail matters has increased and will likely continue to expand. The STB also performs certain oversight of the intercity bus industry, non-energy pipelines, household goods carriers tariffs, and rate regulation of non-contiguous domestic water transportation (marine freight shipping involving the mainland United States, Hawaii, Alaska, Puerto Rico, and other U.S. territories and possessions).

2023 Program: The Board requests \$41,429,000 to carry out its mission as directed under the law. This includes a request for \$1,250,000 from offsetting collections of fees as a credit to the appropriation received, to the extent collected.

The STB's 2023 budget request would maintain current operational funding to meet its statutory responsibilities and continue meeting the needs of stakeholders and the public. The funding for personnel will support the Board's new passenger rail responsibilities by leveraging existing staff with diverse expertise to support the passenger rail unit and the equivalent of two fully dedicated staff assigned to it. The Board's non-personnel budget would continue to prioritize the agency's efforts toward information technology modernization and cybersecurity, and further the agency's efforts to strategically plan and organize evidence-building, data management, and data access functions in support of evidence-based decision making, management of its data, and the agency's mission in general. In addition, the agency would leverage the lessons learned during the coronavirus disease 2019 pandemic to help facilitate mission effectiveness in a hybrid work environment.

The Tennessee Valley Authority (TVA) was created in 1933 as a government-owned corporation charged with the mission to improve the quality of life in the Tennessee Valley through the integrated management of the regions resources. The TVA Act sets forth the agency's purpose: to address the Valley's most important issues in energy, environmental stewardship, and economic development. TVA is currently self-funded, financing its operations almost entirely from revenues and power system financings.

TVA's Power Program.—TVA supplies electric power to an area of 80,000 square miles covering parts of the seven Tennessee Valley states, Tennessee, Alabama, Mississippi, Kentucky, Georgia, North Carolina and Virginia. Estimated income from power operations, net of interest charges, depreciation, and other operating expenses, is expected to be \$0.9 billion in 2023 on operating revenues of \$10.7 billion. Power generating facilities are financed from power revenues and power system financings. TVA's power system financings consist primarily of the sale of debt securities and secondarily of alternative forms of financing, such as lease arrangements.

TVA's Non-Power Programs.—TVA operates a series of 49 dams and 47 reservoirs to reduce the risk of flooding, enable year-round navigation, supply affordable and reliable electricity, improve water quality and water supply, provide recreational opportunities, stimulate economic growth, and provide other public benefits. TVA is responsible for stewardship activities within the Tennessee Valley that include: water release regulation; maintenance of dam machinery and spillway gates; modifications on navigation locks and associated mooring facilities; improvement of water quality and supply; management of shoreline erosion; regulation of shoreline development along the Tennessee River and its tributaries; planning and management of 293,000 acres of public land; and operation of public recreation areas. These services are funded entirely by TVA's power revenues and its user fees.

Economic Development.—TVA is charged with providing the people of the Tennessee Valley region greater opportunities for prosperity. To that end, TVA works to foster capital investment and job growth in the Valley in collaboration with regional, state and local organizations. In fiscal year 2021, TVA worked in partnership with communities and the business sector to spur \$8.8 billion in capital investment in the Tennessee Valley region and helped attract and retain more than 80,000 jobs.

Strategic Financial Plan.—In August 2019, the TVA Board approved an annual budget that reflects the first year of a new Strategic Financial Plan. This Strategic Financial Plan, which extends from FY 2020 through FY 2030, is flexible in aligning customer preferences and TVA's mission while at the same time establishing a long-term forecast of financial results. Key focus areas of the Strategic Financial Plan include (1) establishing alignment between the length of local power company (LPC) contracts and TVA's long-term commitments, (2) stabilizing debt, (3) maintaining flat rates, (4) driving efficiencies into the business, and (5) advancing the public power model. As TVA executes the plan, key assumptions and focus areas may change.

(1) **Contract Alignment:** Long-term power planning requires TVA to make long-term financial commitments. In order to better align customer contractual commitments with TVA's overall financial obligations, the TVA Board approved a long-term partnership proposal that was made available to all TVA-served LPCs in August 2019. Under this long-term partnership proposal, LPCs that agree to contractual changes, which include a rolling 20-year term and a termination notice period of 20 years, will receive a long-term partner credit. That credit is currently 3.1% of wholesale standard service demand, energy, and grid-access charges. TVA's effective wholesale rate and annual revenues will decline as LPCs commit to becoming long-term partners, and TVA's overall financial health will improve through better alignment of customer contract terms with TVA's overall financial obligations. As of December 31, 2021, 146 of the 153 LPCs served by TVA had signed the long-term partnership proposal, thus closing the gap between TVA's committed revenues and long-term obligations.

(2) **Stabilizing Debt:** TVA is focused on stabilizing debt in a range aligned to the balance between customer contractual commitments and total obligations. As TVA executes the plan, key assumptions and performance may change estimated debt and cash balances; however, TVA remains committed to keeping debt stable at or below \$24 billion. Over the coming decade, debt may increase modestly as TVA makes continued investments in power system assets. TVA is comfortable with slightly higher debt levels (less than \$24 billion), given the large number of local power companies that have committed to 20-year partnerships and long-term incentives with TVA.

(3) **Maintain Flat Rates:** As part of the updated Strategic Financial Plan, and to support our LPCs and communities, TVA implemented an aggressive objective that includes no planned base rate increases for 10 years. To this point, TVA has already foregone any rate increases through FY 2022 and continues to plan for no rate increases through FY 2030. Additionally, any LPC that commits to signing the long-term partner agreement is eligible to receive the aforementioned 3.1% partner credits on its monthly power invoices.

(4) **Drive Efficiencies into the Business:** Over the last decade, TVA was able to successfully reduce its annual non-fuel O&M expenses by \$800 million compared to FY 2013 budget levels. Additionally, TVA's annual fuel and purchased power expenses were reduced by over \$1 billion during the same timeframe. TVA remains committed to achieving operating efficiencies, while also maintaining the fuel cost benefits of a diverse portfolio. Also, as part of the organizations priority to drive efficiencies into the business, TVA currently maintains the objective to achieve top quartile performance with respect to its nuclear fleet by the end of 2022 and to lead the nation in nuclear fleet performance by the end of 2025.

(5) **Advance the Public Power Model:** Another focus area within the new financial plan is to continue to advance the public power model. This includes furthering strong, sustainable relationships with our customers. These long-term relationships help with regard to both long-term planning and creating an environment in which both TVA and LPCs share in the success of delivering low-cost, reliable power for everyone in the Tennessee Valley. In order to continue to achieve this objective, TVA plans to continue to deliver and develop differentiated

TENNESSEE VALLEY AUTHORITY FUND—Continued

products and solutions for our customers, including avenues for acquiring renewable energy to help our customers achieve their desired sustainability goals and our mutual carbon reduction aspirations. Additionally, this requires TVA to consider future risks as part of the decision-making process, while enabling future business development.

Financing.—Amounts estimated to become available for TVA programs in 2023 are to be derived from operating revenues of \$10.7 billion. The outstanding balance of TVA's bonds, notes, and other evidences of indebtedness is limited by statute and cannot exceed \$30 billion. TVA's outstanding debt and debt-like obligations were \$20.5 billion at the beginning of 2022 and are estimated to be \$21.4 billion by the end of 2023. At the beginning of 2022, TVA had \$1.1 billion in debt-like obligations that was not counted against its statutory debt cap. In addition, TVA had an unfunded pension liability of \$4.2 billion as of September 30, 2021.

Pension Funding.—As of September 30, 2021, the funding status of TVA employees' defined benefit pension plan (TVARS) was that of a 69% funding ratio and a \$4.2 billion unfunded liability. This compares to a 58% funding ratio and \$5.7 billion unfunded liability in 2020, and a 60% funding ratio and \$5.3 billion unfunded liability in 2019. The increase in funding ratio and decrease in the unfunded liability in 2021 was driven by investment returns. TVA contributed \$300 million to TVARS and incurred \$287 million in actuarial costs in 2021. TVARS made \$722 million in payments to beneficiaries and earned \$1.6 billion, or a 20.3 percent rate of return, on the plan's investments in 2021. TVA is committed to meeting its obligations to current and future retirees and has worked with the TVARS Board in recent years to implement several significant changes to ensure the long-term health of the retirement system.

Operating Results and Financial Conditions.—Payments to the Treasury from power proceeds in 2023 are estimated at a \$4 million return on the appropriation investment in the power program. Total capital spending for 2023 is estimated at \$2.6 billion, which in addition to new generation capacity includes approximately \$100 million for environmental projects and \$1.1 billion to maintain TVA's existing generation assets. Total government equity at September 30, 2023, is estimated to be \$0.9 billion more than that at September 30, 2022. This change includes the estimated net income from power operations and payments to the Treasury.

COVID-19 Response.—The COVID-19 pandemic has also created economic uncertainty for TVA's LPCs and the communities they serve. To support LPCs and strengthen the public power response to the COVID-19 pandemic, TVA created the following initiatives, among others, to support the people of the Tennessee Valley:

Community Care Fund: TVA is partnering with LPCs through the Community Care Fund by making available over \$9 million in TVA matching funds to support local initiatives that address hardships created by the COVID-19 pandemic. As of September 30, 2021, over \$4 million in matching funds had been provided by TVA, with nearly \$2 million provided for the year ended September 30, 2021.

Pandemic Relief Credit: In August 2020, the TVA Board approved a Pandemic Relief Credit that was effective for FY 2021. The 2.5 percent monthly base rate credit, which totaled \$221 million for FY 2021, applied to service provided to TVA's LPCs, their large commercial and industrial customers, and TVA directly served customers through September 2021. In August 2021, the TVA Board approved a 2.5 percent monthly base rate credit, the Pandemic Recovery Credit, which will be effective for FY 2022. The credit, expected to approximate \$220 million, will also apply to service provided to TVA's LPCs, their large commercial and industrial customers, and TVA directly served customers. In November 2021, the TVA Board approved a 1.5 percent monthly base rate credit, which is an extension of the Pandemic Recovery Credit, to be effective for FY 2023. The FY 2023 credit is expected to approximate \$133 million, and it will be administered in a manner similar to the Pandemic Recovery Credit.

These actions continue to show TVA's commitment to support both LPCs and the communities they serve across the Tennessee Valley during these challenging economic conditions caused by the COVID-19 pandemic. TVA is closely monitoring developments and will continue adjusting its response as necessary to ensure reliable service while protecting the safety of its workforce and supporting those in the Tennessee Valley.

The United States Court of Appeals for Veterans Claims (Court) is a national court of record established by the Veterans Judicial Review Act (Public Law 100–687), Division A (1988) (Act). The Act, as amended, is codified in part at 38 U.S.C. 7251–7299. The Court is located in Washington, D.C., but as a national court may sit anywhere in the United States.

The Court is part of the Federal judicial system and has a permanent authorization for seven judges, one of whom serves as chief judge. Per Public Law 114–315, the Congress temporarily authorized expansion of the Court to nine active judges. Judges are appointed by the President, and with the

advice and consent of the Senate, for 15-year terms. The Court is currently staffed with nine active judges. Upon retirement, a judge may choose to be recall eligible, and thus willing to be recalled to service by the chief judge. Currently eight of the Court's ten retired judges are recall eligible and are recalled to service on a rotational basis. Recall-eligible judges may elect full retirement at any time.

The Court has exclusive jurisdiction to review decisions made by the Department of Veterans Affairs Board of Veterans' Appeals (Board) that adversely affect a person's entitlement to Department of Veterans Affairs benefits. This judicial review, although specialized in scope, is the same as that performed by all other United States Courts of Appeals. In cases before it, the Court has the authority to decide all relevant questions of law; to interpret constitutional, statutory, and regulatory provisions; and to determine the meaning or applicability of actions/decisions by the Secretary of Veterans Affairs. The Court may affirm, set aside, reverse, or remand those decisions as appropriate. Additionally, the Court has class action authority, has jurisdiction under 28 U.S.C. 1651 to issue all writs necessary or appropriate in aid of its jurisdiction, and may act on applications under 28 U.S.C. 2412(d), the Equal Access to Justice Act. Certain decisions by the Court are reviewable by the United States Court of Appeals for the Federal Circuit and, if *certiorari* is granted, by the Supreme Court of the United States. For management, administration, and expenditure of funds in areas beyond the bounds of Chapter 72 of Title 38, the Court may exercise the authorities provided for such purposes applicable to other courts as defined in Title 28, U.S. Code.

In 1992, the Congress authorized the Court to transfer funds from its appropriation that year to the Legal Services Corporation (LSC), for the purpose of providing, facilitating, and furnishing legal and other assistance, through grant or contract, to veterans and others seeking recourse in the Court. That program, often referred to as the pro bono representation program, has been ongoing since that time, with LSC responsible for oversight and grant distribution responsibilities. The Appropriations Subcommittees consider LSC's budget request separately from the Court's budget request, although both are submitted together.

The United States Court of Appeals for Veterans Claims Retirement Fund (Retirement Fund or Fund), established under 38 U.S.C. 7298, is used for judges' retired pay and for annuities, refunds, and allowances provided to surviving spouses and dependent children. Participating judges pay 1-percent of their salaries to cover creditable service for retired pay purposes and 2.2-percent of their salaries for survivor annuity purposes. Additional funds needed to cover the unfunded liability may be transferred to the Retirement Fund from the Court's annual appropriation. The Court's contribution to the Fund is estimated annually by an actuarial firm retained by the Court. The Fund is invested solely in government securities.

The Vietnam Education Foundation Act of 2000 (Title II of Public Law 106–554) created the Vietnam Education Foundation (VEF) to administer an international fellowship program under which Vietnamese nationals can undertake graduate and post-graduate level studies in the United States in the sciences (natural, physical, and environmental), mathematics, medicine, and technology, and American citizens can teach in these fields in appropriate Vietnamese institutions of higher education. The Act also authorized the establishment of the Vietnam Debt Repayment Fund, in which all payments (including interest payments) made by the Socialist Republic of Vietnam under the United States-Vietnam debt agreement shall be deposited as offsetting receipts. Beginning in 2002, and in each subsequent year through 2018, \$5 million of the amounts deposited into the fund from USDA and USAID shall be available to VEF for operations and fellowship programs. Beginning in 2015, and in each subsequent year through 2018, the remaining amounts deposited into the fund from USDA and USAID shall be available to support the establishment of an independent, not-for-profit academic institution in the Socialist Republic of Vietnam.

FEDERALLY CREATED NON-FEDERAL ENTITIES

The majority of budgetary accounts are associated with departments or other entities that are clearly Federal agencies. In other cases, budgetary accounts reflect a measure of Governmental activity in the economy, though the activity may have no direct relationship with the United States Treasury. Federally created non-Federal entities may be in the Budget because they were created by Federal law, they have some measure of regulatory or other authority conferred to them by law, or because they serve a public good directed by the Government. The following accounts are each deemed to be budgetary and fulfill the goal of presenting a Budget that is comprehensive of the full range of Federal activities.

The Affordable Housing Program was created by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). FIRREA requires each of the Federal Home Loan Banks to contribute 10-percent of its previous year's net earnings to an Affordable Housing Program (AHP) to be used to subsidize the cost of affordable homeownership and rental housing. The Federal Housing Finance Agency (FHFA) regulates the AHP and ensures that the AHP fulfills its mission.

The Corporation for Travel Promotion (also known as Brand USA) was established by the Travel Promotion Act of 2009 to lead the nation's first global marketing effort to promote the United States as a premier travel destination and to communicate U.S. entry/exit policies and procedures. The public-private partnership, funded through a combination of private sector contributions and Federal matching funds, works closely with the travel industry to encourage increased travel and tourism in the United States.

A surcharge to the Electronic System for Travel Authorization (ESTA) fee that travelers from visa waiver countries pay before arriving in the United States provides Brand USA's Federal matching funds. Authorization to collect the surcharge under the Travel Promotion Act was set to expire September 30, 2020, but was extended to September 30, 2027, in the Brand USA Extension Act (part of the Further Consolidated Appropriations Act, 2020).

The Energy Policy Act of 2005 (P.L. 109–58) authorizes the Federal Energy Regulatory Commission (FERC) to certify an Electric Reliability Organization (ERO) to establish and enforce reliability standards for the electric bulk-power system. These standards include requirements for operating existing bulk-power system facilities, including cybersecurity protection, and design of planned additions or modifications to these facilities to provide for reliable operation, but does not include requirements to construct new transmission or generation capacity. On July 20, 2006, FERC certified the North American Electric Reliability Corporation as the ERO. ERO is funded by fees on end users of the bulk-power system. Since the ERO does not report budget data to Treasury, ERO funding is based on estimates.

The Federal Retirement Thrift Investment Board is responsible for managing the Thrift Savings Fund. Program administration for the Fund is financed from the Fund. Program expenses are funded first from forfeitures and loan fees and then from earnings on all participant and agency contributions to the Fund.

The Thrift Savings Fund is a special tax-deferred savings fund established by the Federal Employees' Retirement System Act of 1986. Due to the fiduciary nature of the Fund, it is not included in the totals of the Federal Budget. Information on the financial status and activities of the Fund follows this account.

INFORMATION SCHEDULES FOR THE THRIFT SAVINGS FUND

The Fund is composed of individual accounts maintained by the Federal Retirement Thrift Investment Board on behalf of the individual participants in the Fund. All Federal civilian employees and members of the uniformed services are eligible to contribute to the Fund. Civilian employees covered by the Federal Employees Retirement System (or equivalent retirement systems) receive an automatic agency 1 percent contribution and matching contributions in accordance with the formulas prescribed by law. Beginning in January 2018, all new members of the uniformed services, and those members of the uniformed services with less than 12 years of service who have made an affirmative election, receive an automatic agency one percent contribution and matching contributions in accordance with the formulas prescribed by law. Employees can invest in five investment funds: a U.S. Government securities investment fund; a fixed income index investment

fund; a common stock index investment fund; a small capitalization stock index investment fund; an international stock index investment fund; or in ten lifecycle funds. These funds are composed of varying allocations of the five core investment funds. The allocations are based on the target maturity date of each fund.

The estimated status of the Fund is shown below:

The National Oilheat Research Alliance (NORA) was first authorized by The National Oilheat Research Alliance Act of 2000, as amended in 2014 (P.L. 113–79), and reauthorized by the Agriculture Improvement Act of 2018 (P.L. 115–334) to develop programs and projects and enter into contracts or other agreements to enhance consumer and employee safety and training; to provide for research, development, and demonstration of clean and efficient oilheat fuel utilization equipment; and to educate consumers. NORA is funded via statutorily-mandated fees of \$0.002 on every gallon of heating oil sold, collected at the wholesale level. Since

NORA does not report budget data to Treasury, NORA funding is based on estimates.

Note: Because the Public Company Accounting Oversight Board (PCAOB) does not report budgetary data to Treasury, amounts shown above were derived from the PCAOB's financial data, which is based on a calendar year.

The Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), as amended by the Dodd-Frank Wall Street Reform and Consumer Protection Act (P.L. 111–203), established the PCAOB to oversee the audits and auditors of both public companies that are subject to Federal securities laws and broker-dealers registered with the Securities and Exchange Commission (SEC) in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports.

Funding for the PCAOB comes from registration and annual fees paid by public accounting firms and accounting support fees paid by public companies and SEC-registered broker-dealers. The Act designated the Commission to oversee the PCAOB and specifies that the PCAOB's budget and the accounting support fee be subject to approval by the Commission.

Note: Because the Securities Investor Protection Corporation (SIPC) does not report budgetary data to Treasury, amounts shown above were derived from SIPC's financial data, which is based on a calendar year. Earnings on investments are presented for all three years using an unamortized cost rather than the market value, to comply with OMB Circular A-11 requirements.

SIPC was created by the Securities Investor Protection Act of 1970 (SIPA). Its purpose is to protect customers against loss resulting from broker-dealer failure and, thereby, promote investor confidence in the Nation's securities markets. SIPC is a non-profit membership corporation. Its members are, with some exceptions, all persons registered as brokers or dealers under section 15(b) of the Securities Exchange Act of 1934 and all persons who are members of a national securities exchange. SIPC's funding is derived entirely from assessments on its membership and from interest earned on its investments in U.S. Government securities.

SIPC may borrow up to \$2.5 billion from the U.S. Department of the Treasury, through the Securities and Exchange Commission, in the event that the fund maintained by SIPC is insufficient to satisfy the claims of customers of brokerage firms in SIPA liquidation or for other purposes under the Act. SIPC has not accessed these loans to date and the Budget does not project that SIPC will require use of these loans over the next 10 years.

Note: Because the standard setting body does not provide budgetary data to Treasury, amounts shown above were derived from the standard setting body's financial data, which is based on a calendar year.

The Financial Accounting Standards Board (FASB) is an independent, private-sector organization organized in 1973 within the Financial Accounting Foundation (FAF), which is an independent, private-sector, not-for-profit corporation. The FASB consists of a seven-member board, whose members are appointed by the FAF. The FASB was originally designated by the Securities and Exchange Commission (Commission) as the authoritative standard setter for purposes of the Federal securities laws in 1973. In April 2003, the Commission reaffirmed the status of the FASB as a designated private-sector standard setting body pursuant to the Sarbanes-Oxley Act of 2002 (the Act) (P.L. 107–204), stating that the FASB's financial accounting and reporting standards are recognized as "generally accepted" for purposes of the Federal securities laws.

The Act authorizes funding for the standard setting body to be derived from an accounting support fee assessed on public companies, although the FAF has, on a voluntary basis, partially offset the fees that could be assessed pursuant to the Act by payments derived from publication sales and licensing fees. Prior to the Act, the FASB was funded by voluntary contributions from public companies, public accounting firms, and other stakeholders. The standard setting body's accounting support fee is subject to review by the Commission.

The Combined Benefit Fund was established by the Coal Industry Retiree Health Benefit Act of 1992 to take over paying for medical care of retired miners and their dependents who were eligible for health care from the private 1950 and 1974 United Mine Workers of America Benefit Plans. The Fund's trustees represent the United Mine Workers of America and coal companies. The Fund is financed by assessments on current and former signatories to labor agreements with the United Mine Workers; past transfers from the United Mine Workers pension fund; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1992 Benefit Plan was established by the Coal Industry Retiree Health Benefit Act of 1992. It pays for health care for those miners who retired between July 21, 1992 and September 30, 1994, and their dependents, who are eligible for benefits under an employer plan and cease to be covered, usually because an employer is out of business. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is supported by signers of the 1988 labor agreement with the United Mine Workers of America; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1993 Benefit Plan provides health benefits to certain retired mine workers and disabled mine workers who are not eligible for benefits under the Coal Industry Retiree Health Benefit Act of 1992 and who are not re-

ceiving benefits from employers' benefit plans. The 1993 Benefit Plan was established through collective bargaining under the National Bituminous Coal Wage Agreement of 1993. Plan trustees are appointed by the United Mine Workers of America and the Bituminous Coal Operators Association, a coal industry bargaining group. The Plan is financed by signatories to the National Bituminous Coal Wage Agreement; transfers from the Abandoned Mine Land Reclamation fund; and the General Fund of the Treasury.

The 1974 United Mine Workers of America Pension Plan provides pensions to eligible mine workers who retire, to those who become totally disabled as a result of mine accidents, and to the eligible surviving spouses of mine workers. The Bipartisan Miners Act of 2019 (Division M of Public Law 116–94), authorizes mandatory Treasury payments to the 1974 United Mine Workers of America Pension Plan, subject to certain limitations, until the Plans funded percentage reaches 100 percent.
